CUREC has approved best practice guidance documents for use by researchers. The use of best practice guidance is not mandatory – researchers should decide whether available guidance is relevant to their research. Some guidance documents are more suited to applications made to specific CUREC subcommittees, as indicated in the table below.

Best practice guidance | Research Support

To assist in the design, specification and installation of building services penetrations to ensure fire compartmentation is maintained, five leading not-for-profit organisations have launched a Best Practice Design and Installation Guide, Firestopping of Service Penetrations. The aim of the guide is to encourage all stakeholders in construction to consider firestopping design earlier in the process in order to avoid problems at a later stage in construction.

Firestopping of Service Penetrations: A New Best Practice ...

A best practice is a method or technique that has been generally accepted as superior to any alternatives because it produces results that are superior to those achieved by other means or because it has become a standard way of doing things, e.g., a standard way of complying with legal or ethical requirements. Best practices are used to maintain quality as an alternative to mandatory legislated standards and can be based on self-assessment or benchmarking. Best practice is a feature of accredite
