So super cute! Since I was a kid, I always liked to see things from a bit more of a shadowy position. I love that this book turns the traditional Mother Goose on her ear. The perfect gift for the little monsters in your life!

Some people don't like the idea of magic in Monster Hunter. The thought of crafting a magic staff/spell book that gives the player access to spells/summons/etc to use on hunts seems "sacrilege" to some. I've read posts about people even saying that the Wyvern Ignition GS (and possible Punch Lance) shouldn't even be in the game because they don't belong in the world they've built.

These words mean "You and I are one now," and they can be found on a sheet of paper in Slappy ...

If you are planning to get these two monsters but having difficulties, here's my opinion comparing them:-Darmith's BG-Gen. Thetys. Depends though, Darmith's BG is a support monster against Water such as Thetys as he has "Water Protection" and "Freeze Immunity" to team, if thats not enough he also give "Special protection" to team completely countering water legendaries and making them weak ...

Monster Goose is a book that includes many short stories about characters including werewolves, pirates, kings, and spiders. About every other page is a new poem. This was a fun book that I enjoyed because it includes poems about all different kinds of characteristics.
