The distribution of incomes in South Africa in 2004, ten years after the transition to democracy, was probably more unequal than it had been under apartheid. In this book, Jeremy Seekings and Nicoli Nattrass explain why this is so, offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty-first century. They show that the basis of inequality shifted in the last decades of the twentieth century from race to class. Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich. The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy, or what Seekings and Nattrass call the " distributional regime. " The post-apartheid distributional regime continues to divide South Africans into insiders and outsiders. The insiders, now increasingly multiracial, enjoy good access to well-paid, skilled jobs; the outsiders lack skills and employment.

There is growing concern and also some controversy over the likely impact of climate change on a range of health problems. Examples are changes in vector-borne disease, increased mortality due to extremes in temperature and the impact of climate change on food supply.

The apartheid state employed many weapons against its opponents: imprisonment, banning, detention, assassination - and banishment. In a practice reminiscent of Tsarist and Soviet Russia, a large number of 'enemies of the state' were banished to remote areas, far from their homes, communities and followers. Here their existence became 'a slow torture of the soul', a kind of social death. This is the first study of an important but hitherto neglected group of opponents of apartheid, set in a global, historical and comparative perspective. It looks at the reasons why people were banished, their lives in banishment and the efforts of a remarkable group of activists, led by Helen Joseph, to assist them. Book jacket.

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.
