COVID-19 made massage therapists very aware of the need for increased sanitation protocols. With the lack of a gold standard for massage therapists, we can turn to entities like the CDC to learn how to create a therapy space that is safe and sanitary. While some practices remain closed, some massage businesses are open now.

~~17 CDC Sanitation Guidelines for Massage Therapists ...~~

Massage is a modality used in many cultures to provide comfort and pain relief using therapeutic touch. There are many styles of massage including Swedish, reflexology, reiki, neuromuscular therapy, myofascial release, shiatsu, tui na, and manual lymphatic drainage, or MLD.. Swedish massage is the most common and consists of five basic strokes. ...

What is Medical Massage? More than a few massage therapists claim to perform Medical Massage. By definition, medical massage is a therapeutic massage prescribed by a physician and performed following the directives of that physician. Medical massage does not refer to any specific treatment method and can include various massage protocols and modalities.
