When the air conditioner in your 2000 Honda Civic starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant. The A/C system in your Civic consists of a compressor that is belt-driven, an evaporator and freon.

How to Add Refrigerant to a 1996-2000 Honda Civic - 2000 ...
