Big Cam I The first Big Cam I engines were
introduced in 1976. Cummins aimed to meet new
US government legislation at that time
regarding noise levels and clean air
requirements. This engine replaced the Small
Cam 855 series engines and it features a
greater camshaft diameter and the
introduction of top-stop injectors.

In the late 1970's and 80's, the Cummins 855 Big Cam was the king of the road when it came to semi-truck diesel engines. It was and still is an engineering masterpiece. At the time of its inception it was not only the most powerful engine available, but the most fuel efficient, the most reliable, and the first engine to meet noise and emissions regulations. We formed a close working ...

cummins big cam 350 for sale | eBay

The Big Cam II significantly upgraded performance by introducing pulse manifolds into the engines; these were a big selling feature in these engines at the time. Overall horsepower was the main reason this engine was a big seller over the small cam models. The Cummins 855 Big Cam had one of the largest camshaft diameters on the market at the time and features top-stop injectors. Talk to any ...
