international misconceptions and delusions. This is the story of a student who returns to his village after his obsession with the West had led him to London and the beds of women with similar obsessions about the mysterious East.

Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century, and the J. Paul Getty Museum owns one of the most comprehensive collections of his work, including more of his vintage prints than any other museum in the world. This lavishly illustrated volume brings together for the first time all of the Museum's Walker Evans holdings. Included here are familiar images—such as Evans's photographs of tenant farmers and their families, made in the 1930s and later published in *Let Us*

Now Praise Famous Men—and images that are much less familiar—such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus, or his very late Polaroids, made in the 1970s. In addition, many previously unpublished Evans photographs, and variant croppings of classic images, appear here for the first time. Author Judith Keller has written a lively, informative text that places these photographs in the larger context of Evans's life and career and the culture—especially the popular culture—of the time. In so doing, she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century. Also included is the most comprehensive bibliography on Walker Evans published to date.

These hitherto uncollected book reviews of Shaw--his first journalistic efforts--reveal much not only about the writer but also the culture of the time in which he lived. Between 1885 and 1888, Bernard Shaw published 111 book reviews in the Pall Mall Gazette. In spite of their importance as the first regular journalism Shaw wrote and the fact that the books (fiction, nonfiction, plays, and poetry) he read during these years must have formed the nucleus of his permanent library, the reviews have never before been analyzed in connection with Shaw's work. Brian Tyson has assembled the book reviews, complete with the books' titles, authors, and a brief biography of each author, including any comments Shaw made about the review, and has placed them in historical

context, elucidating any interesting, difficult, or obscure references. Tyson's critical introduction places the reviews in the context of Shaw's work and Victorian society. The reviews are often characterized by the wit and brilliance that we associate with the later Shaw, shedding light on his development as a writer at his most formative stage.

Regardless of the merits of the material Shaw was reviewing, it is amusing and enlightening to follow him down to the wandering tributaries of Late Victorian fiction and poetry, which reveal as much about Shaw as they do about the preoccupations and prejudices of the average reader of the day.
