Regents Biology 36.2 - The Muscular System Prepared by Kim Foglia. Adapted and Modified by Nhan Pham.

36.2 - The Muscular System

The muscular system consists of all the muscles of the body. There are three types of muscle: skeletal muscle (which is attached to bones and enables voluntary body movements), cardiac muscle (which makes up the walls of the heart and makes it beat), and smooth muscle (which is found in the walls of internal organs and other internal structures and controls their movements).
