Questo volume, che non è un semplice resoconto, offre nei diversi settori in cui si articola uno spaccato delle più recenti ricerche, con l'intento di fornire ai lettori strumenti utili per la comprensione e l'approfondimento delle diverse sfaccettature di cui si compone il millenario rapporto tra l'Uomo e il mare.

Per quanto ci dedichiamo a smart working e multitasking, amiamo i nostri dispositivi elettronici e pensiamo di avere tutto sotto controllo, dentro di noi sappiamo che qualcosa non va. Calo dell'attenzione, indebolimento del pensiero critico, scarsa qualità del sonno, diminuzione della creatività sono solo alcuni degli effetti negativi sempre più comuni in quest'epoca di distrazione digitale. Qualunque sia la nostra concezione di successo e felicità, la capacità di avvicinarci a questi obiettivi sembra essersi perduta. È il momento di riprendere il controllo delle nostre vite. De-crescere bene è un percorso per ritrovare il giusto equilibrio e tornare a essere padroni del nostro destino. Brian Solis l'ha intrapreso in prima persona, e ha creato una serie di tecniche, esercizi ed esperimenti di pensiero utili a riprendere il controllo sul caos e ricominciare a vivere ogni giornata in modo positivo e produttivo. Anziché cedere al richiamo di notifiche, like, app e social - da cui, soprattutto nei momenti di noia, è difficile staccarsi - possiamo imparare a gestire meglio il nostro tempo e ritrovare l'ispirazione che ci serve, senza per questo rinunciare agli innegabili vantaggi offerti dai nostri dispositivi. Solis unisce pensiero scientifico a consigli pratici, senza lasciarcì mancare ironia, pathos e forza motivatrice, che sono il vero valore di questo libro. De-crescere bene offre strumenti semplici ma molto forti per: ¶ identificare le principali fonti di distrazione e spostare l'attenzione su attività creative e produttive; ¶ riconoscere e contrastare le strategie di manipolazione che portano alla dipendenza digitale; ¶ trovare motivazioni e scampo di impiegare il tempo in modo più significativo e smettere di procrastinare; ¶ interrompere le cattive abitudini, stabilire i rituali e mettere in pratica la routine necessaria per raggiungere gli obiettivi; ¶ massimizzare la produttività con strategie semplici ma efficaci; ¶ mantenere la concentrazione per lunghi periodi; ¶ sorridere di più e aumentare l'autostima. Spesso realizziamo solo una piccola parte di ciò di cui saremmo capaci e viviamo nell'ombra di ciò che potremmo fare. Ce ne accorgiamo ogni volta che lasciamo spazio alle distrazioni, ma non abbiamo la reale consapevolezza di quanto il lato oscuro della tecnologia ci tenga prigionieri. Grazie alla nuova prospettiva offerta da questo libro, possiamo finalmente imparare a dare priorità a ciò che è realmente importante e vivere la nostra vita - fisica e digitale - nel modo che più desideriamo.

This book will make you learn German in just 30 days, starting from scratch. And this is more than just a promise. Let me explain it to you... The method is very simple: this book is divided into 30 chapters, one per day. This, will allow you to learn the basics of this language in just one month. To get the most out of this course, you just have to respect one, simple rule. You must read one chapter per day, no more, no less. If you respect this rule, and follow the instructions you find in this book, the result is guaranteed. Forget the usual boring grammar courses with an anonymous and depersonalized profile. "How to learn German in 30 days" has been realized with all the trimmings of self-help. It looks like a practical manual, with a personal, fun and motivating cut. It is rich of several curious anecdotes and useful tips not only to speak German, but also to get by on the road. If you are still not convinced, keep reading... From the author's introduction... German, trust me, will open you a lot of doors: and, not of secondary importance, you'll face far less competition than you would with Spanish or French, for example, since German is less widespread studied in schools and universities. Thus, in short, this manual will give you, within a month, all the grammatical skills you need to juggle the meanders of a language that is really useful and usable for those who have in mind career ambitions, tourism goals, or simply personal curiosity interests. Finally, please, don't worry, I will also provide you with many other useful tools, like online channels, readings and suitable movies, in order that the course and your learning will continue even beyond this month. You'll like it, you'll see, and you'll be abundantly satisfied, even if at the beginning, as is normal, you are doubtful and still convinced that the good old traditional courses, with their long structure and depersonalising attitude, are yet the state of the art, the best the market can offer.
