Pharmaceutical Ingredients
Development Manufacturing

To successfully bring an Active Pharmaceutical Ingredient (API) to market, many steps must be followed to ensure compliance with governmental regulations. Active Pharmaceutical Ingredients is an unparalleled guide to the development, manufacturing, and regulation of the preparation and use of APIs globally. Topics include: Safety, efficacy, and environmental/regulatory requirements.

therapies, have multiple active ingredients to treat different symptoms or act in different ways. Production of APIs has traditionally been done by the pharmaceutical companies themselves in their home countries. But in recent years many corporations have opted to send manufacturing overseas to cut costs.
