Champion Lancer (Model 402) is the only post-WWII multi-engine airplane produced by either Bellanca or the Aeronca/Champion factories. The article in the October 2003 (13-4) issue of B-C Contact! provides some of the unique aspects and pictures, and prompted a letter from another member (issue 14-1) who had trained in one in the sixties.

Bellanca, Citabria, Bellanca-Champion Club Official Site

American Champion has been using aluminum spars in the aircraft it has produced and has, as well, made the aluminum-spar wings available for retrofit installation on older aircraft. Compared to the Citabria's wingspan of 33.5 feet (10.2 m), the Scout's wingspan is significantly wider, at over 36 feet (11 m).

American Champion 8GCBC Scout | Custom Airplane Model

The 8-GCBC American Scout is a single engine general aviation aircraft produced in 1974 (United States). With the main design purpose for private and commercial use, it is a very versatile aircraft. Commonly used in utility roles such as bush flying (credited to its short takeoff and landing distances) for agricultural uses, pipeline patrol, and glider towing.

7gcbc Parts Manual - bitofnews.com

American Champion's 7GCAA, reintroduced in 1997 as the Citabria "Adventure," is similar to earlier versions, with the exception of the metal-spar wings and the use of the Lycoming O-320-B2B engine of 160 horsepower (120 kW); the most recent significant design change has been the switch to aluminum main gear legs in 2004.

This is a comprehensive reference to every type and manufacturer of business and light aircraft constructed in the Western World since World War II.

Volume 2 of The Thinking Pilot's Flight Manual carries on the widely praise, penetrating, and clear-headed approach of Volume I, addressing matters of importance to pilots that ordinary flight training manuals never touch. It delves into everything from the realities of making the go/no-go decision during the takeoff roll, nailing spot landings, which emergencies to practice, and how to take babies and kids flying. It explores how we scare our passengers without realizing it, IFR training in IMC, and takes a hard look at spin training. Rick Durden is one of three 2015 recipients of the Endeavor Award, honoring volunteer pilots who have made significant contributions to flying to serve the public. For 25 years he has made flights in remote areas of the U.S. and Central America in support of conservation. He is an Airline Transport-rated pilot with experience in over 200 types of airplanes, a practicing aviation attorney who has been involved in hundreds of aircraft accident cases, writer, aviation magazine editor, safety counselor, and flight instructor.
