~~LARC V — WikiMili: The Best Wikipedia Reader~~

An amphibious vehicle, is a vehicle that is a means of transport, viable on land as well as on water. Amphibious vehicles include amphibious bicycles, ATVs, cars, buses, trucks, combat vehicles, boats and hovercraft. Classic landing craft are not amphibious vehicles as they do not offer any real land transportation at all, although they are part of amphibious warfare. Ground effect vehicles, such as ekranoplans, will likely crash on any but the flattest of landmasses so are also not considered t

~~Amphibious Vehicle Larc V — The History of the World~~

"This project examines LARC V, which is water and land interface vehicle designed for support of amphibious operations (troops and cargo transport) in rivers and protected waters. Vehicle' 5 mission evolved to more stringent, involving amphibious assault operations in the highly demanding surf zone, as well as support of the dive and salvage operations. The age (35 years), and increasing requirements, including weight, stability, range, speeds, and reliability dictated study on improvement or replacement of the existing design. Research concentrates on conceptual study and development of various options for presentation to the sponsor, U.S. Navy Ocean Facilities Program (OFP), and the ultimate owner, U.S. Navy, Underwater Construction Teams."--Page ii.

Amphibious vehicles are necessary for militaries that need to get men and supplies from sea to shoreline. Readers will learn about the different kinds of amphibious vehicles and how they move over water and land! Big full-bleed photographs, new glossary terms, and a close up look at a vehicle will keep readers wanting more! Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jumbo is an imprint of Abdo Kids, a division of ABDO.

The ground war in Vietnam pitted a myriad of American tanks, artillery, APC and trucks against not only the weapons of Communist North Vietnam, but also the terrain. Through archival images, the arsenal of the US Army and USMC are revisited. From the iconic M113 APC to the M48A3 tank, M551 Armored Reconnaissance/Airborne Assault Vehicle, M151 and M54 trucks, M50 Ontos, M107 and M109 artillery, and M42 Duster, the complete array of vehicles fielded is shown. This book, the first in a series on the US military's weapons, vehicles, aircraft, and naval vessels of the Vietnam War, offers a highly illustrated reference for this wishing to delve deeper into this conflict.
