Yale University is pleased to announce Art of the Twentieth Century, a series published in association with The Open University. "This new series has much to commend it. It shows a keen awareness of recent artistic and critical developments, and it establishes a balance between setting the historical framework and analyzing themes and issues.

The original edition of this ambitious reference was published in hardcover in 1998, in two oversize volumes (10x13"). This edition combines the two volumes into one; it's paperbound ("flexi-cover"—the paper has a plastic coating), smaller (8x10", and affordable for art book buyers with shallower pockets—none of whom should pass it by. The scope is encyclopedic: half the work (originally the first volume) is devoted to painting; the other half to sculpture, new media, and photography. Chapters are arranged thematically, and each page displays several examples (in color) of work under discussion. The final section, a lexicon of artists, includes a small bandw photo of each artist, as well as biographical information and details of work, writings, and exhibitions. Ruhrberg and the three other authors are veteran art historians, curators, and writers, as is editor Walther. c. Book News Inc.

An investigation of artists' engagement with technical systems, tracing art historical lineages that connect works of different periods.

This reader, a companion to The Open University's four-volume Art of the Twentieth Century series, offers a variety of writings by art historians and art theorists. The writings were originally published as freestanding essays or chapters in books, and they reflect the diversity of art historical interpretations and theoretical approaches to twentieth-century art. Accessible to the general reader, this book may be read independently or to supplement the materials explored in the four course texts. The volume includes a general introduction as well as a brief introduction to each piece, outlining its origin and relevance.

This illuminating and provocative book is the first anthology devoted to Twentieth Century Native American and First Nation art. Native American Art brings together anthropologists, art historians, curators, critics and distinguished Native artists to discuss pottery, painting, sculpture, printmaking, photography and performance art by some of the most celebrated Native American and Canadian First Nation artists of our time The contributors use new theoretical and critical approaches to address key issues for Native American art, including symbolism and spirituality, the role of patronage and museum practices, the politics of art criticism and the aesthetic power of indigenous knowledge. The artist contributors, who represent several Native nations - including Cherokee, Lakota, Plains Cree, and those of the Plateau country - emphasise the importance of traditional stories, mythologies and ceremonies in the production of contemporary art. Within great poignancy, they write about recent art in terms of home, homeland and aboriginal sovereignty Tracing the continued resistance of Native artists to dominant orthodoxies of the art market and art history, Native American Art in the Twentieth Century argues forcefully for Native art's place in modern art history.

Jackson Pollock, Georgia O'Keeffe, Andy Warhol, Julian Schnabel, and Laurie Anderson are just some of the major American artists of the twentieth century. From the 1893 Chicago World's Fair to the 2000 Whitney Biennial, a rapid succession of art movements and different styles reflected the extreme changes in American culture and society, as well as America's position within the international art world. This exciting new look at twentieth century American art explores the relationships between American art, museums, and audiences in the century that came to be called the 'American century'. Extending beyond New York, it covers the emergence of Feminist art in Los Angeles in the 1970s; the Black art movement; the expansion of galleries and art schools; and the highly political public controversies surrounding arts funding. All the key movements are fully discussed, including early American Modernism, the New Negro movement, Regionalism, Abstract Expressionism, Pop Art, and Neo-Expressionism.

Key Writers on Art: The Twentieth Century offers a unique and authoritative guide to modern responses to art. Featuring 48 essays on the most important twentieth century writers and thinkers and written by an international panel of expert contributors, it introduces readers to key approaches and analytical tools used in the study of contemporary art. It discusses writers such as Adorno, Barthes, Benjamin, Freud, Greenberg, Heuser, Kristeva, Merleau-Ponty, Pollock, Read and Sontag.

A retrospective of the art of the twentieth century features concise introductions to every major art movement, with over four hundred illustrations of works from some of the most famous artists of the century.

02 This gorgeous book presents and discusses the oils, works on paper, and other artistic creations of William Holman Hunt, one of the three major artistic talents of the Pre-Raphaelite brotherhood. This gorgeous book presents and discusses the oils, works on paper, and other artistic creations of William Holman Hunt, one of the three major artistic talents of the Pre-Raphaelite brotherhood.

Surveys developments and achievements in twentieth-century painting, sculpture, and architecture and their social, political, religious, and intellectual backgrounds

Through the selection of eleven master designers, Jerry Kelly illustrates a wide range of styles: from classically inspired design and historical revival, to novel and modern layouts.
