CRAZY Past Technology We CAN'T Replicate Today! Association Of Water Technologies Technical

The Association of Water Technologies (AWT) is the international water treatment association representing over 500 companies that specialize in applying water treatments for industrial and commercial cooling and heating systems. We work daily to support our members and provide them with the tools they need to succeed and grow their careers and their businesses — training, certification, networking, and regulatory and public awareness programs.

The Technical Committee is made up of five subcommittees: Boiler, Cooling Water, Pretreatment, Special Projects, and Wastewater. These subcommittees generate quality technical documents for publication and distribution to AWT members and the industry. They also make recommendations to the board regarding positions on technical issues.
