Theory of
Attachment – John
Bowlby, 1969
(Description, AO1):

Bowlby's theory
(1969) is an
evolutionary
theory. He
proposed infants
form an
attachment to a
caregiver because
attachment is
adaptive (aids

of Religion ...

The incorporation of evolutionary theory into psychology has waxed and waned in the 150 years since Darwin (1859) predicted that the field would be based on a new foundation. There are many notable examples of

Read Book Attachment

psychological theories with evolutionary bases, such as Bowlby's (1969) model of attachment, yet these are often isolated examples.

Evolutionary Theory and Psychology

The field of
evolutionary

Read Book Attachment

Evolutionary psychology looks at how evolutionary pressures led to particular adaptations such as these.

Evolutionary psychology is related to both macroevolution in the sense that it looks at how the human species (especially the

Read Book Attachment

brain) has changed over time, and it is also rooted in the ideas attributed to microevolution.
