The Audit and Risk Assurance Committee can therefore play a key role in seeking an optimum mix of assurance. The Three Lines of Defence model (below) can help in this respect. 2.4 Management will already have several sources of assurance over the key risks and an

Assurance frameworks - gov.uk

The third edition of Messier employs the new approaches currently being used by auditing professionals, and soon to be adopted by the Auditing Standards Board. This approach stresses understanding of the entity (i.e., the organization or business being audited) and its environment (i.e. industry), and then assessing the business risks faced by the entity and how management controls those risks.
