Professor Pinel is an award-winning teacher and the author of more than 200 scientific papers. However, he feels that Biopsychology is his major career-related accomplishment: “It ties together everything I love about my job: students, teaching, writing, and research.” Steven J. Barnes obtained his Ph.D. from the University of British Columbia. He then worked as a postdoctoral fellow — first in the Department of Epileptology at the University of Bonn and then in the School of ...

Biopsychology - Pearson  
Biopsychology presents a clear, engaging introduction to biopsychological theory and research through a unique combination of biopsychological science and personal, reader-oriented discourse. Original author John Pinel and new co-author Steven Barnes address students directly and interweave the fundamentals of the field with clinical case studies, useful metaphors, and memorable anecdotes that make course material personally and socially relevant to readers.

Test Bank Biopsychology 9th 9E John Pinel PDF eBook Download  
Author John Pinel and his artist/designer wife, Maggie Edwards, created many of these illustrations exclusively for this text. While some biopsychological textbooks emphasize neurophysiology, neurochemistry, and neuroanatomy, Biopsychology gives top billing to coverage of behavioral research. The authors stress that neuroscience is a team effort and that the unique contribution made by biopsychologists to this effort is their behavioral expertise.
