SOURCE: 2001 bmw 740il output
speed sensor location hello ryk786,
i/m not a hundred percent certain, but I
think the output speed sensor is
located at the back of the
transmission. With the pan removed, if
you look at the valve body and see the
EDS valves and connectors, look
about 2 inches back toward the end of
the case and you should see a
connector by itself.
