This book provides a unique description of teacher-pupil interaction during the Literacy Hour in good schools. It is based on detailed observations in inner-city primary schools that were recognised as effective and improving. The analysis is informed by contemporary research into the development and teaching of early literacy. The book provides practice-based examples of how teachers and schools might adapt their delivery for literacy as they move to greater creativity in their teaching of reading and writing. The analysis begins within the classrooms of three expert Key Stage 1 teachers and broadens out in to the wider setting of the schools and their senior management teams. An important theme running throughout the book is how the three teachers were able to make exceptional provision for their pupils, who were largely second language speakers and from socio-economically disadvantaged groups. The teachers ' successful practice grew from their understanding of both early literacy development and planning for individual need. The information in this book will enable student teachers, recently qualified teachers, and teachers interested in enhancing their literacy teaching to develop their practice in a similarly successful way.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

Will Ryan's *Dare to be Different*: A leadership fable about transformational change in schools tells the fictional tale of Brian Smith a primary school head teacher who listens to what his political masters have to say, but then sets out to inspire real transformational change by doing the exact opposite and leading through his own values and beliefs. Writer and novelist Michael Korda claims that 'the fastest way to succeed is to look like you are playing to someone else's rules whilst quietly playing by your own'. *Dare to be Different* illustrates how real transformational change can occur when a school leader does just that, as Will Ryan shares the trials and tribulations of the story's fearless protagonist, Brian Smith, as he endeavours to take back ownership of what happens in the classroom. Exploring the significant challenges that school leaders often have to overcome in order to turn their dream into a reality, *Dare to be Different* lays before the reader a model of inspirational school leadership in this engaging and humorous take on life in modern schools. The story is told through the eyes and experiences of Brian as he resists top-down government directives on how his school should be run and instead strives to build a vibrant curriculum with which to hook the imaginations of today's children. Scattered among the narrative's twists and turns are deeper insights into the nature and purpose of schooling that are sure to rekindle school leaders' passion for pupil-centred education over policy-led prescription, and which will motivate them to 'dare to be different' in standing up for the education they believe in. Whilst it may be a fable with fictitious characters, *Dare to be Different* is based on real schools: schools in which the author has worked with leaders and teachers who, by applying their deeply held educational beliefs, accelerate learning and provide exciting learning opportunities for their pupils. Will Ryan has condensed and interwoven his forty-three years' worth of accumulated experience of going in and out of the UK's best classrooms into this book, in which you will find: at least one-hundred-and-eighteen tips that are based around exciting primary practice and which should make the hairs tingle on the neck of the most wizened school inspector; at least forty-five significant ideas that will strengthen leadership and have the capacity to transform your school as a learning community; at least fifty quotations that will make you think about how our most inspirational leaders create inspirational teachers who get an inspirational response from their learners; and compelling pieces of evidence to demonstrate that primary school teachers are doing a fabulous job, despite what any politician or tabloid reporter would tell you. Suitable reading for all school leaders at both primary and secondary levels who are looking to promote excellence and raise aspirations within their schools and wider communities.

Presented in a clear and accessible way, the 'Key Stage 3 Success Workbooks' cover everything students need to know for Key Stage 3, providing different styles of questions to test students' knowledge on any given subject.

This book takes into account three core policies: 'Every Child Matters', 'Personalised Learning', and 'Harnessing Technology', combined they are at the heart of changes to children and young peoples' experiences of school. *Harnessing Technology* considers these policies and their interlinked relationship. It outlines the ways in which technology allows us to assess, track and monitor pupil progress and use this information to better support both their learning and their broader needs, making it an essential resource for training and practicing teachers, school leaders, and all those involved in educational transformation. To achieve the five outcomes of the 'Every Child Matters' agenda requires an approach that is pupil centred, with developments in new technologies making it possible to not only understand each individual more precisely, but also for them to learn in more flexible and personalised ways. Through innovations such as web based information sharing, learning platforms and e-portfolios, schools will be able to offer content appropriate to pupil's personal goals, breaching conventional orthodoxies of time and place. How far these policies will transform schools and services for children and young people remains to be seen. Consideration is given within the book to the barriers to their success, the issues that impinge upon them, and questions asked about their capacity to bring about long-term, systemic, change.

An answer file which corresponds to a book using fiction, non-fiction, media, poetry and drama texts to provide practice in reading and understanding skills required for Key Stage 3 tests and beyond. The answer file has a photocopyable format enabling students to mark their own work.

Brings together essays and other documents from a cross-section of the education establishment who unite in their criticism of current education policy. Together they make a powerful critique of the government's adherence to dogma at the expense of our children's future.
