The touching, magical story of a boy in a war-torn country and the stone lion that rescues him. Renato loves his home in Florence, Italy. He loves playing with his friends in the Piazza della Signoria. He loves walking home by the beautiful buildings and fountains with his father in the evenings. And he especially loves the stone lion who seems to smile at him from a pedestal in the piazza. The lion makes him feel safe. But one day his father tells him that their family must leave. Their country is at war, and they will be safer in America. Renato can only think of his lion. Who will keep him safe? With luminous watercolor paintings, Barbara DiLorenzo captures the beauty of Florence in this heartwarming and ultimately magical picture book.

Film/Genre revises our notions of film genre and connects the roles played by industry critics and audiences in making and re-making genre. Altman reveals the conflicting stakes for which the genre game has been played and recognises that the term 'genre' has different meanings for different groups, basing his new genre theory on the uneasy competitive yet complimentary relationship among genre users and discussing a huge range of films from The Great Train Robbery to Star Wars and from The Jazz Singer to The

Dan Yaccarino’s great-grandfather arrived at Ellis Island with a small shovel and his parents’ good advice: “Work hard, but remember to enjoy life, and never forget your family.” With simple text and warm, colorful illustrations, Yaccarino recounts how the little shovel was passed down through four generations of this Italian-American family—along with the good advice. It’s a story that will have kids asking their parents and grandparents: Where did we come from? How did our family make the journey all the way to America? “A shovel is just a shovel, but in Dan Yaccarino’s hands it becomes a way to dig deep into the past and honor all those

Francesco Casetti believes new media technologies are producing an exciting new era in cinema aesthetics. Whether we experience film in the theater, on our hand-held devices, in galleries and museums, onboard and in flight, or up in the clouds in the bits we download, cinema continues to alter our habits and excite our imaginations. Casetti travels from the remote corners of film history and theory to the most surprising sites on the internet and in our cities to prove the

ongoing relevance of cinema. He does away with traditional notions of canon, repetition, apparatus, and spectatorship in favor of new keywords, including expansion, relocation, assemblage, and performance. The result is an innovative understanding of cinema's place in our lives and culture, along with a critical sea-change in the study of the art. The more the nature of cinema transforms, the more it discovers its own identity, and Casetti helps readers realize the galaxy of possibilities embedded in the medium.

For Italian intellectuals, the terms fascist and antifascist continue to be the hard currency of contemporary political debate-to the point that if you are not one, you must be the other. When professor Renzo de Felice suggests that fascism

describes a moment in the Italian past-and only that-he is challenging the very heart of current orthodoxy. The nature of his analysis of the recent Italian past is itself at odds with the traditional version, and represents a radical departure from conventional wisdom. De Felice's ideas about fascism have a broad significance, quite apart from their importance in the contemporary Italian scene. Perhaps no one knows as much about fascism, and no one has given the subject such a rigorous historical analysis.
