The Big Picture of Business, Book 2 offers a creative approach to strategy development and planning for companies in today's turbulent business environment that prepares them for an unknowable tomorrow. Each year, one-third of the US Gross National Product goes toward cleaning up problems, damages, and other high costs caused by companies that failed to take proper actions. Look no further than the cost of the current financial crisis for an example. The costs of band-aid surgery for their problems and make-good work cost businesses six times that of proper planning, oversight, and accountability. In addition, 92 percent of all problems in organizations stem from poor management decisions. In The Big Picture of Business, Book 2, Hank Moore takes a fresh look at change and growth, utilizing full-scope planning as a means of navigating through uncertain waters toward richer success, based on his trademarked approach to growing and strengthening businesses that has been tested by his actual work in guiding corporations over three decades. Hank shows readers how to master change and, in doing so, ready companies to face the future.

THE "I HATE TO WRITE" GUIDE TO COLLEGE LEVEL ESSAYS: 4 IN 1 does not replace the required text books in English Composition courses but

it does explain how to write an essay at this level without using academic words like "thesis." I never understood what that meant when I was an undergraduate, so I don't expected everyone to know what it means...but I do explain what it is in "regular" language. The four volumes grouped together here have appeared in e-book form but never as a print copy. It was probably past time to offer another option. The reason I wrote BASIC ESSAY, BOOK CRITIQUE, and RESEARCH PAPER is that they were the first essays students were required to write -- not just in composition class but in other courses. CHOOSING A TOPIC is something that has boggled many a mind. These are my guidelines and enough students told me that the way I detailed essay requirements finally allowed the light bulb moment of understanding the process be lit for them. Hopefully you'll find something helpful, too.

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.
