Brother-in-law of Hafiz Saeed, Chief LeT and Head of LeT political affairs and served as Head of LeT's foreign relations department. 4. Shahid Mehmood @ Shahid Mehmood Rehmatullah

Nobody has everything they need, all the time – so how can we make do with what we have? Economics is all about understanding the choices we make to solve this problem. With bright, infographics pictures, this informative book describes why markets are so important, how businesses work out what to sell, and how governments choose how to run a country. Includes Usborne Quicklinks to specially selected websites for more information.

This Book Vividly Portrays The Role Of The Army In The Politics Of Pakistan From Its Earliest Years And Demonstrates How The Intermix Of Political And Military Forces Created Difficulties For Both, And Damaged National Prestige.

Agriculture plays a pivotal role in the economy and development of Pakistan providing food to consumers, raw materials to industries, and a market for industrial goods. Unfortunately, agricultural production is stagnant due to several barriers including a fixed cropping pattern, reliance on a few major crops, a narrow genetic pool, poor seed quality, and a changing climate. In addition, the high cost of production, weak phytosanitary compliance mechanisms, and a lack of cold chain facilities makes Pakistan agriculturally uncompetitive in export markets. Despite all these issues, agriculture is the primary industry in Pakistan and small farmers continue to dominate the business. Small farmers grow crops for subsistence under a fixed cropping pattern and a holistic approach is required to develop agriculture to improve the livelihoods of the rural populace. This book presents an exhaustive look at agriculture in Pakistan. Chapters provide critical analyses of present trends, inadequacies in agriculture, strategic planning, improvement programs and policies while keeping in view the natural resources, plant- and animal-related agricultural production technologies, input supplies, population planning, migration and poverty, and balanced policies on finance, credit, marketing, and trade.

The fully revised new edition of the international bestseller THE 80 MINUTE MBA is your short-cut to business brilliance. A traditional MBA is for either the time-rich, very wealthy or lucky few with a generous corporate sponsor. So what happens if you want to get a hit of high-quality business inspiration without spending two years back at school? THE 80 MINUTE MBA is the gateway to fresh thinking, in less time than it takes a standard meeting to get past coffee and donuts. The MBA-in-a-box book is old hat. Managers need the encouragement to think differently, not in the same straight lines. THE 80 MINUTE MBA is an injection of inspiration, creative thinking and dynamic approaches which will help you see the world of business differently. Stimulating new material brings this edition right up to date with critical business thinking. Including a new chapter on the platform economy and fresh technology and social media examples this book will energize and inspire you in equal measure.

Jackson & McIver's Macroeconomics was a winner of The Australia "Tertiary (Adaptation) Teaching and Learning Package" Awards for Excellence in Education Publishing 2004. Now in its 9th edition, Jackson & McIver has successfully introduced many new students of economics to the principles essentials to a proper and clear understanding of fundamental economic problems. Written for business students, the authors aim to equip tomorrow's business manager with the necessary knowledge and tools, to analyse and interpret data, and to under the implication of government policies on business. Thorough Grounding Written primarily for business majors, Jackson & McIver is a refined and mature, yet up-to-date, text that gives students a thorough grounding in economic principles and theories. Balanced Approach that Builds Critical Thinking Skills Jackson & McIver continues to introduce business students to key principles essential to an understanding of fundamental economic problems. Students are introduced to a number of alternative viewpoints, enabling them to form their own views about the benefits and limitations of economic ideology, and to actively analyse economic debates in both the public and private sectors. International and Current Jackson & McIver is a text that reflects the increasing global environment that tomorrow's Business Manager will face. It has updated data throughout, with some new case studies included. The "Practising Economist" feature encourages students to analyse and interpret statistical information for use in the business everyday.

Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

"Taking into consideration that the agricultural industry is greatly dependent on pesticide chemicals to deal with the damage caused due to pests, this new volume details the challenges along with the bioremediation and remediation measures, such as the use of beneficial microorganisms, polymeric nanocomposites for nanoremediation, phytoremediation, and more. It looks at pesticide contamination from agricultural activities in a variety of different environs and a selection of sustainable and eco-friendly remediation approaches. It provides a spectrum of concepts, ideas, and knowledge related to the detrimental actions of pesticides on the environment directly and on human beings indirectly and provides insight into sustainable and advanced pesticide remediation technology. Pesticide Contamination in Freshwater and Soil Environs: Impacts, Threats, and Sustainable Remediation fills a gap in the available literature in this field and will provide valuable for academicians, researchers, agriculturists, and students"--
