And don't forget the bonus content: 100 immediately usable queries available for download. Provides step-by-step instructions for using SAP Query Covers relevant content for all SAP ERP components

The authorized guide to the latest edition of the #1 business intelligence software product - Crystal Reports. More than 16 million licenses of Crystal Reports have been shipped to date. This book is a reference designed to provide hands-on guidance for the latest release of the product suite. The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees. Brand new features (e.g. Dynamic and Cascading Parameter Generation) will also appeal to new audiences. Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform, as this is the first release of the software with the existing Business Objects (BO) products being integrated into the Crystal infrastructure. As Business Objects insiders, the authors bring unique and valuable real-world perspectives on implementations and uses of the Crystal Reports product. The book also includes content, tutorials and samples for reporting within the Microsoft Visual Studio.NET and J2EE development environments and also on top of the SAP Business Information Warehouse (BW) and the Peoplesoft platform. Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI, is also now included in this definitive user guide with coverage on the new Web Services SDK.

The MDX Cube Reporting Guide provides information to integrate MicroStrategy with MDX cube sources. You can integrate data from MDX cube sources such as SAP BW, Microsoft Analysis Services, and Hyperion Essbase into your MicroStrategy projects and applications.

Provides an overview to the exam's topics, including a "Need to know" list that identifies areas that must be understood-in-depth. Includes exercises that can be performed, usually with a smallest BW server. Contains practice test questions that assess the readersknowledge of the current exam topics. Serves as a complement to the classroom training provided bySAP.
