Items - Architecture and Asceticism

St. Andrew's House (SAH), on the southern flank of Calton Hill, Edinburgh, is the headquarters building of the Scottish Government. The building stands on the site of the former Calton Jail. Today, the turreted Governor's House is all that remains of the former prison, next to the Old Calton Burial Ground and Political Martyrs' Monument.

Architecture illustrates the history of the twentieth century and the buildings and structures to be found in this book symbolize the diversity and scope of twentieth-century life, covering the political, industrial, environmental and traditional influences on modern building.

Arts and crafts - Classicism - Organic - Modernism - Postmodernism - Robotic - Cities - Futures.

Features every distinguished and ground-breaking structure of the twentieth century, from Sir Edwin Lutyens' Deanery Garden to Frank Gehry's Guggenheim Museum, arranged by style. Newbridge Architects' & Designers' Book Club Main.

"A balance of sophistication and clarity in the writing, authoritative entries, and strong cross-referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world's most notable architecture. The contents feature major architects, firms, and professional issues; buildings, styles, and sites; the architecture of cities

and countries; critics and historians; construction, materials, and planning topics; schools, movements, and stylistic and theoretical terms. Entries include well-selected bibliographies and illustrations."--"Reference that rocks," American Libraries, May 2005.

ARCHITECTURAL STRUCTURE & DESIGN. Featuring more than 100 of the most significant and influential buildings of the twentieth century, this book includes both classic works by such seminal architects as Le Corbusier, Frank Lloyd Wright, Mies van der Rohe and Alvar Aalto, as well as those by more recent masters, such as Norman Foster, Frank Gehry and Rem Koolhaas. For each of the buildings included there are numerous, accurate scale plans showing each floor, together with elevations, sections and site plans where appropriate. There is also a concise text explaining the significant architectural features of the building and the influences it shows or generated, together with full-colour images. Cross-references to other buildings in the book highlight the various connections between these key structures.

Featuring more than 100 of the most significant and influential buildings of the twentieth century, this book includes both classic works by seminal architects such as Le Corbusier, Frank Lloyd and Alvar Aalto as well as the more recent works of Norman Foster, Frank Gehry, Rem Koolhaas and others.

Explore the world's greatest buildings! Architecture is filled with amazing illustrations and photographs that take you to the heart of the world's landmark buildings. Get the opportunity to look beyond the facade. Examine materials and technology that shape buildings, and identify the key elements and decorative features of each architectural style. This is the best definitive visual guide on architecture; it covers 5,000 years of architectural design, style, and construction from airports to ziggurats. Dissects architectural wonders inside and out Includes palaces, great temples, cathedrals and towering modern skyscrapers

A celebration of the great buildings and structures of the modern age, C20th Architecture traces every movement in architecture, from Modernism to Classicism, and details every major architect of the century past, including Frank Lloyd Wright and Mies van der Rohe. The roots of modern architecture and the rapidly changing political and social conditions of the modern era that have helped shape the structural world around us is chronicled in this one authoritative and indispensable volume.
