This is an advanced guide to running political campaigns. It provides invaluable, practical advice from the leading pros in the industry.

Examining political campaigns and political advertising through the analytical lens of media literacy, this well-illustrated and timely handbook guides readers through the maze of blandishments and spin that is the hallmark of the modern political campaign. It dissects the persuasive strategies embedded in the political messages we encounter every day in the media and demonstrates the importance of critical thinking in evaluating media stories. Key concepts of media literacy are applied to political advertising in traditional media (newspapers, television, radio) and on the Internet, the new frontier of the political advertising wars. Dealing with blogs, social networking, user-generated Web sites, and other electronic formats familiar to young voters, this lively introduction to the new world of political messaging appeals to readers' affinity for visual learning as well as their ability to discern messages in text. Unique in applying media literacy concepts to the political context while directly addressing students and general readers, this book not only explains but graphically demonstrates both established techniques of political framing and the new avenues of persuasion being pioneered in digital media. It will also interest viewers who like their political news in traditional media but unconventional formats.

The pressures of contemporary electioneering force political professionals into "campaign mode"—a state of mind that merges a visceral drive to win elections with a deep-seated habit of strategic thinking. Wise political professionals know the basic rules of electoral strategy and how to read the political terrain. Campaign Mode examines the strategic histories of five successful congressional candidates—Ohio's Ted Strickland, Georgia's Bob Barr, California's Loretta Sanchez, Tennessee's Harold Ford, Jr., and Pennsylvania's Rick Santorum. The authors—both of whom have advised major political figures—combine original interviews, survey data, historical investigation, and first-hand observation of the candidates to reveal the inner workings of electoral politics. They demonstrate that campaigns do matter and show readers how to think like political professionals.

The first edition of Get Out the Vote! broke ground by introducing a new scientific approach to the challenge of voter mobilization and profoundly influenced how campaigns operate. In this expanded and updated edition, the authors incorporate data from more than one hundred new studies, which shed new light on the cost-effectiveness and efficiency of various campaign tactics, including door-to-door

canvassing, e-mail, direct mail, and telephone calls. Two new chapters focus on the effectiveness of mass media campaigns and events such as candidate forums and Election Day festivals. Available in time for the core of the 2008 presidential campaign, this practical guide on voter mobilization is sure to be an important resource for consultants, candidates, and grassroots organizations. Praise for the first edition: "Donald P. Green and Alan S. Gerber have studied turnout for years. Their findings, based on dozens of controlled experiments done as part of actual campaigns, are summarized in a slim and readable new book called *Get Out the Vote!*, which is bound to become a bible for politicians and activists of all stripes." —Alan B. Kreuger, in the *New York Times* "*Get Out the Vote!* shatters conventional wisdom about GOTV." —Hal Malchow in *Campaigns & Elections* "Green and Gerber's recent book represents important innovations in the study of turnout."—*Political Science Review* "Green and Gerber have provided a valuable resource for grassroots campaigns across the spectrum."—*National Journal*
