Online CXC Exams Coming - Jamaica Information Service

The Caribbean Primary Exit Assessment (CPEA) has been developed by the Caribbean Examinations' Council (CXC) in collaboration with the Ministries of Education throughout the region, and was introduced in place of the National Common Entrance Examination (CEE) for the first time in 2012, as a measure of the key skills required by students exiting the primary school system.

To meet the various needs of students, administrative policies and instructional techniques must consistently be improved upon. This allows schools to deliver a higher quality of education to students. Assessing the Current State of Education in the Caribbean is a pivotal reference source for the latest research on recent developments and innovations for schools in the Caribbean region. Focusing on teacher leadership, learning assessment techniques, and technology uses, this book is ideally designed for educators, school administrators, professionals, and researchers interested in recent developments within the education sector.

Education in the United Kingdom is a comprehensive critical reference guide to education in England, Scotland, Wales, Northern Ireland, The Isle of Man, The Channel Islands, Gibraltar, The Cayman Islands, Bermuda, Anguilla and The British Overseas Territories. Although generically similar in education structures, the various components of the United Kingdom have separate systems, with some very distinctive differences. The chapters, written by regional experts, offer a review of contemporary national and regional educational structures and policies, research innovation and trends. Some of the themes covered include issues relating to the partition of Ireland, differences between maintained and independent schooling, language issues and radical alternatives in teacher education. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this book is an essential reference for researchers, scholars, international agencies and policy-makers.

Caribbean Discourse in Inclusive Education is an edited book series that aims to give voice to Caribbean scholars, practitioners, and other professionals working in diverse classrooms. The book series is intended to provide an ongoing forum for Caribbean researchers, practitioners, and academics, including those of the Diaspora, to critically examine issues that influence the education of children within inclusive settings. The book series is visionary, timely, authoritative and presents pioneering work in the area of inclusive education in the Caribbean, as part of the broader South-South dialogue. It is essential reading for students in undergraduate and postgraduate programmes, scholars, teachers, researchers and policy makers at the regional and international level. The first book in this series entitled Historical and Contemporary Issues will trace the history and examine the Caribbean's trajectory towards the development of inclusive education in the 21st Century. The main premise of the book is that inclusion remains an ideologically sound goal, which remains elusive in the Caribbean. It will also provide a wider platform to discuss other factors that influence the development of inclusive education such as school climate, culture and ethos, LGBT issues, teacher training and professional development, pedagogy, pupil perspective, curriculum, policy and legislation.

This handbook provides a concise overview of special education services in countries across the world, using the Article on Education in the United Nations Convention on the Rights of Persons with Disabilities as the analytical frame.

- Provides a comprehensive scope and broad coverage that addresses more than 70 countries, regions, and provinces across virtually every part of the world
- Offers information on each nation or area on the public education system, private education system, special education system, teacher training requirements, and barriers to inclusive and special education
- Presents both information about current practices in special education and promising new trends likely to take hold in the future

From the birth of a formal education system through the end of slavery in the early nineteenth century to today's struggles to incorporate technology into classrooms, this book delivers a detailed history of schooling in the British Virgin Islands. Charles H. Wheatley, OBE, PhD, a lifelong educator and school administrator, has been practicing his craft since 1955 when the first Education Act was passed in the Virgin Islands Legislature. He puts the classroom to life on the printed page. The author highlights the struggles and triumphs of the leaders, elders, and heroes in the growth of the educational system, focusing on the period from 1834 to 2016. On this journey, you will hear various voices of British Virgin Islanders as they fought for better educational opportunities for the children of the territory—and you'll see faces of change as society evolved. Each chapter addresses issues in education from a historical perspective, with the characteristics of each historical period clarifying the roots from which our educational growth started. Trace the path of the British Virgin Islands' development through the prism of the educational strides it made while responding to massive demographic, social, and technological change.

The Annual Review of Comparative and International Education covers significant developments in the field of comparative and international education. This 2020 edition begins with a collection of discussion essays about comparative education trends and directions written by both professional and scholarly leaders.

The Europa Directory of International Organizations 2020 serves as an unequalled one-volume guide to the contemporary international system. Within a clear, unique framework the recent activities of all major international organizations are described in detail. Given alongside extensive background information the reader is able to assess the role and evolving functions of these organizations in today's world. The contact details, key personnel and activities of more than 2,000 international and regional entities have again been thoroughly researched and updated for this 20th edition. Highlights in this edition include:

- a fully revised Who's Who section with biographical details of the key players in the international system.
- the response of the international community to crises and conflicts throughout the world.
- introductory essays, written and updated by experts in their field, which consider topics including global environmental governance, the international criminal justice system, international humanitarian co-operation, and governance of the global economy.

Make teaching and learning mathematics relevant and enjoyable with the best-known Primary mathematics series in the Caribbean updated and revised for the 21st Century by practising teachers, with a new focus on self-directed learning, problem-solving and raising standards.

- Ensure all requirements of primary schools in all Caribbean territories from kindergarten to primary school exit examination level are covered.
- Engage students and make maths more relevant with real-life situations used throughout the book, including the front cover, showing Mathematics in action.
- Reinforce knowledge and encourage progression with Assessment Bank, available separately to compliment the topics covered in this series.
- Encourage

students to understand and build their own learning with all key skills and concepts clearly introduced in sequence, demonstrating links between mathematical strands and other curriculum subjects.
