An important work of the period, China's Gentry, was compiled from Fei's field interviews, and was published in the United States in 1953. It went on to become a staple of American university courses on China.

Fei Xiaotong - Wikipedia

Abstract. From the 1870s to the 1940s, the construction of lineages among the Han settlers on the frontier between China's Yunnan province and Burma became significant. Through these lineages the construction of Han identity was also extended toward Burma along various transportation routes. In the continuing reformation of frontier society, gentry power, based on lineage corporations, expanded and performed a crucial role in the construction of a new style of border, as well as functioning ...
