The Yijing (I Ching) or "Book of Change" is one of the oldest of the Chinese classic texts and has held a key place in the Daoist tradition for thousands of years. Explaining the ancient Yijing system of prediction based on the Xiang (symbolism) and Shu (numerology) knowledge of Bagua (the eight basic trigrams), which have not previously been written about outside China, this book makes the Yijing accessible to the Western world in a new and fuller way. In the space of just eight days, Master Zhongxian Wu leads the reader towards a deep understanding of the Eight Trigrams of the Yijing and how to apply this knowledge in practical ways in daily life. TianGan (Heavenly Stems) and DiZhi (Earthly Branches), commonly abbreviated to GanZhi, originated in the ancient Chinese cosmological sciences and is a complex calendrical system which was created to codify the patterns of life and of the

universe itself. The ten symbols of Gan express the Yin or Yang perspective of Five Elements and embody the Way of Heaven. The 12 symbols of Zhi, made manifest in the 12 animals of the Chinese zodiac, hold the root of each Element and embrace the Way of Earth. This set of study cards beautifully presents the key characteristics of each of the 22 GanZhi symbols, making it a unique learning tool and reference guide. The Chinese character of each Stem or Branch is shown, and for calligraphers and those who want to draw the characters correctly the stroke order is clearly illustrated on separate cards. This accessible learning tool offers essential information on the fundamental

building blocks upon which Chinese classical texts, classical Chinese medicine, Fengshui, Chinese astrology, traditional Chinese cosmology, Qigong, Neigong, Taiji, and other inner cultivation practices are built. These cards provide a key starting point for the beginning student and offer invaluable information for the seasoned practitioner to deepen their practice. A companion book (9781848191518), also published by Singing Dragon, is available.

was about the treatment of illness. The medicine of the 21st century is about wellness.

Crossing the Healing Zone advances the new concepts of the emerging frontiers of integrative medicine, bringing together Eastern and Western healing traditions and merging body, mind, and spirit in a Jungian perspective. The journey through the Healing Zone that Dr. Bedi proposes is guided by archetypes and myths, active imagination, dreams and synchronicities, and the neuroplastic mysteries of our complex physical reality. The Healing Zone can be described in many ways—as the fourth dimension of consciousness, as quantum consciousness, as Jung's "psychoid space," as the Buddhist
