Check Engine Light Codes
Chrysler code P0300 indicates that one or more cylinders are experiencing misfires. A misfire occurs when an insufficient amount of fuel is burning in a cylinder. The efficient burning of fuel is essential to engine operation as the combustion of fuel is what provides the energy to power the engine in your Chrysler.

P0406 is a generic OBDII Diagnostic
code. It deals with the signal coming
from the EGR system. In this case, it

Get Free Chrysler 300 Engine Codes

means that the signal coming from the EGR system is higher than the specified range Since it is a generic code, it has the same meaning for the Chrysler 300 as it would any other vehicle.
