quarterback at first. In fact, the Pride was known as a running team with a few powerful backs. In his game as a starter on September 9, 2004, Kaepernick only had five attempts with two completions - one of which was a 21-yard pass for a first quarter touchdown. But the team was led by junior-back Anthony Harding's 233 yards, and senior-back Mark Runyan's 117 yards as Pitman combined for 471 rushing yards in a 46-36 win at home against Kennedy High School (Sacramento). One week later, Kaepernick began to show how good of an arm he had when he went 14-for-20 for 203 yards and three touchdowns in a 19-7 victory over Johansen High School (Modesto) on September 17, 2004. The games would flip between whether the Pride would focus more on the rushing attack, or let Kaepernick have the opportunities to throw. His final numbers at the end of the season were 1,051 passing yards, 13 touchdowns, and four interceptions. Kaepernick helped the Pitman Pride to an 8-3 record in his junior season that ended on November 19, 2004 against West High School from Tracy, California - a state playoff game where they lost 35-21. Kaepernick was 14-for-27 for 171 yards, one touchdown, and one interception. Edited by activist and former San Francisco 49ers super bowl quarterback Colin Kaepernick, Abolition for the People is a manifesto calling for a world beyond prisons and policing. Abolition for the People brings together thirty essays representing a diversity of voices--political prisoners, grassroots organizers, scholars, and relatives of those killed by the anti-Black terrorism of policing and prisons. This collection presents readers with a moral choice: "Will you continue to be actively complicit in the perpetuation of these systems," Kaepernick asks in his introduction, "or will you take action to dismantle them for the benefit of a just future?" Powered by courageous hope and imagination, Abolition for the People

provides a blueprint and vision for creating an abolitionist future where communities can be safe, valued, and truly free. "Another world is possible," Kaepernick writes, "a world grounded in love, justice, and accountability, a world grounded in safety and good health, a world grounded in meeting the needs of the people." The complexity of abolitionist concepts and the enormity of the task at hand can be overwhelming. To help readers on their journey toward a greater understanding, each essay in the collection is followed by a reader's guide that offers further provocations on the subject. Newcomers to these ideas might ask: Is the abolition of the prison industrial complex too drastic? Can we really get rid of prisons and policing altogether? As writes organizer and New York Times bestselling author Mariame Kaba, "The short answer: We can. We must. We are." Abolition for the People begins by uncovering the lethal anti-Black histories of policing and incarceration in the United States. Juxtaposing today's moment with 19th-century movements for the abolition of slavery, freedom fighter Angela Y. Davis writes "Just as we hear calls today for a more humane policing, people then called for a more humane slavery." Drawing on decades of scholarship and personal experience, each author deftly refutes the notion that police and prisons can be made fairer and more humane through piecemeal reformation. As Derecka Purnell argues, "reforms do not make the criminal legal system more just, but obscure its violence more efficiently." Blending rigorous analysis with first-person narratives, Abolition for the People definitively makes the case that the only political future worth building is one without and beyond police and prisons. You won't find all the answers here, but you will find the right questions--questions that open up radical possibilities for a future where all communities can thrive.

An instant New York Times bestseller! “ Rapinoe's 'signature pose' from the 2019 FIFA Women's World Cup is synonymous to the feeling we got when finishing this book: heart full, arms wide and ready to take up space in this world. ” —USA Today Megan Rapinoe, Olympic gold medalist and two-time Women's World Cup champion, reveals for the first time her life both on and off the field. Guided by her personal journey into social justice, brimming with humor, humanity, and joy, she urges all of us to ask ourselves, What will you do with your one life? Only four years old when she kicked her first soccer ball, Megan Rapinoe developed a love – and clear talent – for the game at a young age. But it was her parents who taught her that winning was much less important than how she lived her life. From childhood on, Rapinoe always did what she could to stand up for what was right—even if it meant going up against people who disagreed. In *One Life*, Megan Rapinoe invites readers on a remarkable journey, looking back on both her victories and her failures, and pulls back the curtain on events we know only from the headlines. After the 2011 World Cup, discouraged by how few athletes were open about their sexuality, Rapinoe decided to come out publicly as gay and use her platform to advocate for marriage equality. Recognizing the power she had to bring attention to critical issues, in 2016 she took a knee during the national anthem in solidarity with former NFL player Colin Kaepernick to protest racial injustice and police brutality—the first high-profile white athlete to do so. The backlash was immediate, but it couldn't compare to the overwhelming support. Rapinoe became a force of change. Here for the first time, Rapinoe reflects upon some of the most pivotal moments in her life and career – from her realization in college that she was gay, through the disputes with soccer

coaches and officials over her decision to kneel, to the first time she met her now-fiancé WNBA champion Sue Bird, and up through suing the US Soccer Federation over gender discrimination and equal pay. Throughout, Rapinoe makes clear the obligation we all have to speak up, and the impact each of us can have on our communities. Deeply personal and inspiring, *One Life* reveals that real, concrete change lies within all of us, and asks: If we all have the same resource—this one precious life, made up of the decisions we make every day—what are you going to do? "One Life makes it clear that Rapinoe's greatest accomplishments may ultimately come away from the soccer pitch. She's a new kind of American hero."—San Francisco Chronicle

A history of the activism and achievement of African American athletes from Jesse Owens to Serena Williams to Colin Kaepernick, who advanced the cause of social justice through their outspokenness, commitment, and integrity. Muhammad Ali refused to fight in a war he believed was immoral. Wilma Rudolph retired from track and field to campaign for civil rights. Colin Kaepernick took a knee during the national anthem to draw attention to the oppression of black bodies. *Taking a Knee, Taking a Stand* tells their stories and the stories of other prominent African American male and female athletes who often risked their careers to fight racial discrimination and promote social justice. From Jackie Robinson breaking the color line in major league baseball to NBA great Bill Russell sitting at the feet of Dr. Martin Luther King at the 1963 March on Washington to Althea Gibson asserting her tennis dominance at a time when many clubs would not allow African Americans to play on their courts, this moving and celebratory history shows how the tradition of black protest in sports

has been consistent, necessary, and organic, and that the present crisis of misunderstanding and intolerance demands that this tradition continue as the country struggles toward fairness and equity.

Riveting and inspiring first-person stories of how “ taking a knee ” triggered an awakening in sports, from the celebrated sportswriter In 2016, amid an epidemic of police shootings of African Americans, the celebrated NFL quarterback Colin Kaepernick began a series of quiet protests on the field, refusing to stand during the U.S. national anthem. By “ taking a knee, ” Kaepernick bravely joined a long tradition of American athletes making powerful political statements. This time, however, Kaepernick ’ s simple act spread like wildfire throughout American society, becoming the preeminent symbol of resistance to America ’ s persistent racial inequality. Critically acclaimed sports journalist and author of A People ’ s History of Sports in the United States, Dave Zirin chronicles “ the Kaepernick effect ” for the first time, through interviews with a broad cross-section of professional athletes across many different sports, college stars and high-powered athletic directors, and high school athletes and coaches. In each case, he uncovers the fascinating explanations and motivations behind a mass political movement in sports, through deeply personal and inspiring accounts of risk-taking, activism, and courage both on and off the field. A book about the politics of sport, and the impact of sports on politics, The Kaepernick Effect is for anyone seeking to understand an essential dimension of the new movement for racial justice in America.
