More value, better outcomes, for less. Health care is an industry in need of innovation. Health plans, providers, life sciences companies, and the government are facing rising costs and inconsistent outcomes. They are working to improve care and health outcomes, all while reducing costs and spending. What innovations are most likely to help stakeholders achieve these goals and transform health care over the next 10 years?

Book review. Design for Care: Innovating Healthcare ...
Nurses are motivated to engage in innovative practices primarily because they seek to improve patient experiences, health outcomes and nursing practice. There are multiple interpretations of the meaning of innovation. Here at the RCN we have adopted this definition by West and Farr (1990) to frame our understanding of all that we want to support and celebrate in nursing.

Innovation in nursing | Royal College of Nursing
Innovative Healthcare Design Ideas Since the very first Symposium on Health Care Interior Design in 1988, we've seen many innovative design ideas for hospital projects emerge that now seem like no-brainers. Ten that stand out for me (in no particular order) are: Removing the barriers from the nurse station
