In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

A guide to the orchestra, from the cello to the clarinet to the tuba to the timpani, through sounds and stories.

Jeanne Marie Laskas had dreams of life on a farm that she couldn't get out of her head. A dream of fleeing her otherwise happy urban life for fresh air and open space. A dream she would discover was about something more profound than that. A dream she never ever expected to come true. Until a hot summer afternoon led to a drive in the country, where a place that had existed only in her fantasies turned out to be real--and for sale. Fifty Acres And A Poodle The place is almost too perfect to be believed, but there it is: a pretty-as-a-picture-postcard farm, with an Amish barn, a chestnut grove, and vistas so

beautiful, they take her breath away. And in that moment she knows that this is the spot where her future begins. So she drags her boyfriend Alex, a committed urban dweller with zero agricultural awareness who owns a poodle, into her scheme, hoping that love will somehow conquer all. But buying a postcard--fifty acres of scenery--and living on it are two entirely different matters. The questions seem endless: How long before the barn roof collapses? Should they buy sheep? Will the place be good for her writing, and for her relationship with Alex? And is there any way to keep Betty the mutt and Marley the poodle from rolling in mud, leaves, and unidentified smelly remains? In this funny yet tender tale, Laskas shares what happens when you follow your dream--and what happens when it's almost snatched away. *Fifty Acres and a Poodle* is a charming and surprisingly poignant memoir of Jeanne Marie Laskas's first year on Sweetwater Farm. It is a journey peopled by unforgettable characters: Billy, the local contractor who bulldozes her briars, takes her shopping for tractors, and advises her on buying a mule; Tim, the FedEx driver whose truck becomes Marley's obsession and nearly his downfall; the local hunters who present her with an entire wardrobe of blaze-orange hats; and Bob the cat, whose valiant fight for life gives her the courage to love. Jeanne Marie Laskas writes with exhilarating wit and extraordinary wisdom about life, love, and finding your true self on a farm. It's hard to say how a dream forms. Especially one like mine, which at first seemed so utterly random. It could have been a sailing-a-boat-to-Tahiti dream, a quit-your-job-and-hitchhike-to-Alaska dream. It was a fill-in-the-blank dream, born of an urge, not content. An urge for something new. I was thirty-seven years old. I lived on Eleventh Street, the last house on the right, in South Side, a gentrified old mill town on the banks of the Monongahela River. I rented an office in downtown Pittsburgh, a fifteen-minute bike ride away, which is where I spent my days writing stories and magazine articles. I had a garden. I had a cat. I had a dog. And I had a farm dream, a fantasy swirling around in my head about moving to the country. Where in the world was this coming from? That's what I wondered. It might have made sense if I was a miserable person, sick of my life. But I was not. I had a good life; it had taken me a long time to get it that way. A farm dream would have made sense, I supposed, if I was at least the farm dream type. A person with some deep personal longing to churn butter. A person who had had city life forced upon her and now was determined to go be true to herself and live among the haystacks. A person who wore her hair in long braids, used Ivory soap, and liked to stencil her walls with pictures of little chickens and cows. A person who, at minimum, had a compost pile in her yard where she diligently threw lawn clippings and coffee grounds and eggshells and earned the right to use the word organic a lot. But I was not that person. I was not even sure what hay was, or why anyone would stack it. And if I composted anything, it was only by mistake.

There is a mystery afoot at the Museum of Fine Arts in Boston. A hole appears here, a tiny bite there. Someone has been eating the art! Join Riley the Museum Dog, who is specially trained to sniff out pests, as he attempts to catch the mischievous culprit. Children will enjoy the antics, as the hunt leads them past and introduces them to some of the world's great art. Featuring works by John Singleton Copley, Frida Kahlo, Claude Monet, Kehinde Wiley, and more. Co-produced by The Boston Globe and the Museum of Fine Arts, Boston, *The Adventures of Riley the Museum Dog* is authored by Devra First, with hand-drawn illustrations by Ryan Huddle.

Streaming media has irreversibly revolutionised the ways in which media is transmitted and consumed. Most of us engage with streaming media on a daily basis via platforms that deliver our entertainment: Spotify, YouTube and Netflix are new brands which many of us engage with daily for our information and entertainment. It has created upheaval in the entire value chain and wiped out industries slow to adapt to it (like the video store rental chain). And it continues to evolve. Streaming media is transforming business communications in myriad ways, and it is becoming almost as crucial for project managers and marketers to understand streaming technology as it is for media professionals. The *Streaming Media Guide* demystifies the technology and features behind a successful streaming media service, especially in the context of how it is used by broadcasters and other media organisations. Common terms and systems being used in this space are presented and defined simply and clearly for non-technical readers. Best practice examples from Michael D'Oliveiro's experiences demonstrate how this technology can be successfully implemented. This book equips any media professional with the most basic of traditional media knowledge to enable confident conversations in the typical media organisation they work in. For technology-based graduates or dedicated broadcast professional seeking to refresh their understanding, this book provides enough information to form a solid foundation for day-to-day work. Finally, for leaders in cross-functional senior management matrices, information is provided to enable you to understand and exploit streaming media capabilities as a business. This will be the ultimate reference source, guaranteed to be bedside reading for anyone serious about using streaming media.
