Judyth Vary was once a promising science student who dreamed of finding a cure for cancer; this exposé is her account of how she strayed from a path of mainstream scholarship at the University of Florida to a life of espionage in New Orleans with Lee Harvey Oswald. In her narrative she offers extensive documentation on how she came to be a cancer expert at such a young age, the personalities who urged her to relocate to New Orleans, and what led to her involvement in the development of a biological weapon that Oswald was to smuggle into Cuba to eliminate Fidel Castro. Details on what she knew of Kennedy's impending assassination, her conversations with Oswald as late as two days before the killing, and her belief that Oswald was a deep-cover intelligence agent who was framed for an assassination he was actually trying to prevent, are also revealed.

Released for the first time 16 years after his death, this startling autobiography by one of the so-called "three tramps" from the John F. Kennedy assassination reveals the details of Chauncey Marvin Holt's many claims. Much mystery and suspicion still swirls around that fateful day in November 1963, and theories abound in nearly every form of media. But one of the major mysteries revolves around the three men spotted and later arrested in Dealey Plaza. Holt's controversial confession to being one of the three tramps has a history of its own, and in his own words he delves into his unique and wild background and life. From his United States Air Force service during Pearl Harbor to his associations with the mob and the CIA, Holt discusses his experiences and encounters in great detail. From a man who truly lived a rare and unique life, the book explains the ins and outs of his associations with Lee Harvey Oswald and the assassination in this unique retrospective of a complex and occasionally dubious life.

Explores the murder of Mary Pinchot Meyer and her connection to President Kennedy. Ideal book for fans of *The Devil's Chessboard* by David Talbot, *The Reporter Who Knew Too Much* by Dorothy Kilgallen, *Dr. Mary's Monkey* by Edward T. Haslam, and other JFK conspiracy books. Updated edition of the true crime expose, including new evidence and government documents corroborating the conspiracy to assassinate JFK's trusted ally and final true love. The death of Mary Meyer left many Americans with questions. Who really killed her? Why did CIA counterintelligence chief James Angleton rush to find and confiscate her diary? Had she discovered the plan to assassinate her lover, President Kennedy, with the trail of information ending at the steps of the CIA? Was it only coincidence that she was killed less than three weeks after the release of the Warren Commission Report? Fans of *The Murder of Mary Russell*, *JFK: A Vision for America*, and other JFK books will love *Mary's Mosaic*. Building and relying on years of interviews and painstaking research, author Peter Janney follows the key events and influences in Mary Pinchot Meyer's life—her first meeting with Jack Kennedy; her support of her secret lover, President Kennedy, as he worked towards the pursuit of world peace and away from the Cold War; and her exploration of psychedelic drugs. Fifty years after the assassinations of President Kennedy and Mary Meyer, this book helps readers understand why both took place. Author Peter Janney fought for two years to obtain documents from the National Personnel Records Center and the US Army to complete this third edition. It includes a final chapter about the mystery man who could be the missing piece to learn the truth behind Meyer's murder.

Of the all the people surrounding the assassination of President Kennedy, few are more mysterious and enigmatic than David William Ferrie of New Orleans. Author Judyth Vary Baker knew David Ferrie personally and worked with him in a covert project in New Orleans during the summer of 1963, and this book examines his strange and puzzling behavior both before and after the assassination. At the time of the assassination, Ferrie was a 45-year-old New Orleans resident who was acquainted with some of the most notorious names linked to the assassination: Lee Oswald, Clay Shaw, Guy Banister, Jack Ruby, and Carlos Marcello. He possessed assorted talents and eccentricities: he was at one time a senior pilot with Eastern Airlines until he was fired for homosexual activity on the job; he was also a hypnotist; a serious researcher of the origins of cancer; an amateur psychologist; and a victim of a strange disease, alopecia, which made all of his body void of hair. His odd lifestyle was embellished with an equally bizarre appearance featuring a red toupee and false eyebrows. This is the first book focused solely on David Ferrie and his alleged involvement in the conspiracy to assassinate President John F. Kennedy.
