The literature of the behavioural and social sciences is full of theory and research on learning and memory. Teaching is comparatively a stepchild, neglected by those who have built a formidable body of theories of learning and memory. However, teaching is where learning and memory theory should pay off. "A Conception of Teaching" dedicates a chapter to each of the following important components: the need for a theory; the possibility of a theory; the evolution of a paradigm for the study of teaching; a conception of the process of teaching; a conception of the content of teaching; a conception of students' cognitive capabilities and motivations; a conception of classroom management; and the integration of these conceptions. Written in a highly accessible style, while maintaining a base in research, Dr. Nathaniel L. Gage presents "A Conception of Teaching" with clarity and well situated within current educational debates.

This sourcebook contains more than twelve hundred easy-to-follow and implement classroom activities created and tested by veteran teachers from all over the country. The activities are arranged by grade level and are keyed to the revised National History Standards, so they can easily be matched to comparable state history standards. This volume offers teachers a treasury of ideas for bringing history alive in grades 5/12, carrying students far beyond their textbooks on active-learning voyages into the past while still meeting required learning content. It also incorporates the History Thinking Skills from the revised National History Standards as well as annotated lists of general and era-specific resources that will help teachers enrich their classes with CD-ROMs, audio-visual material, primary sources, art and music, and various print materials. Grades 5/12

Teacher effectiveness and licensure in the United States continue to be scrutinized at the state and national levels. At present, 40 states plus the District of Columbia have adopted edTPA to inform initial teacher licensure and/or certification decisions (American Association of Colleges for Teacher Education, n.d.). edTPA is designed to measure novice teachers' readiness to teach their content area, with a focus on student learning and principles from research and theory (SCALE, 2015). Composed of planning, instruction, and assessment tasks, edTPA portfolios seek to provide evidence of teacher candidate readiness in three areas: (1) intended teaching, (2) enacted teaching, and (3) the impact of teaching on student learning. Specifically, edTPA measures teacher candidates' ability to: • develop knowledge of subject matter, content standards, and subject-specific pedagogy • develop and apply knowledge of varied students' needs • consider research and theory about how students learn • reflect on and analyze evidence of the effects of instruction on student learning (p. 1) Teacher candidates create extensive portfolios that include written commentaries explaining each task and video excerpts of a recorded teaching event. Teacher candidates must submit evidence to show their teaching prowess and pay \$300, at present, to Pearson Education for their portfolio to be evaluated by external reviewers. In this volume, researchers share their experiences working with edTPA in three areas of language learning: English Language Arts, English to Speakers of Other Languages, and World Languages. The volume provides empirical research in the areas of multicultural perspectives, pedagogical practices, and edTPA (in)compatibility. Findings are of interest to multiple stakeholders such as teacher candidates, mentor teachers, teacher preparation faculty members and program coordinators, and administrators.

The focus of this book is the centrality of clinical experiences in preparing teachers to work with students from diverse cultural, economic, and experiential backgrounds. Organized around three themes—learning teaching through the approximation and representation of practice, learning teaching situated in context, and assessing and improving teacher preparation—Rethinking Field Experiences in Preservice Teacher Preparation provides detailed descriptions of theoretically grounded, research-based practices in programs that prepare preservice teachers to contextualize teaching practices in ways that result in a positive impact on learning for traditionally underserved students. These practices serve current demands for teacher accountability for student learning outcomes and model good practice for engaging teacher educators in meaningful, productive dialogue and analysis geared to developing local programs characterized by coherence, continuity, and consistency.

edTPA is the most widely-used performance assessment for pre-service teachers in the United States, and a requirement in many states for teaching licensure. Through edTPA, teacher candidates demonstrate their effectiveness in different aspects of teaching, including planning, instruction, assessment, analysis of teaching, and use of academic language. This book is a practical guide for anyone involved in edTPA implementation. The chapters are written by experienced teacher educators who are leading successful edTPA programs in their own universities, who are in the field, and involved in the work. They represent diverse teacher preparation programs, each with their own strengths and challenges. This book addresses the challenges of edTPA, while providing practical strategies for educative and thoughtful implementation. Organized into four sections, each section explores a different aspect of edTPA implementation, and provides guidance for leading faculty and teacher candidates through edTPA.

When a young pig knocks on a fox's door, Mr. Fox thinks dinner has arrived, but the pig has other plans, in a funny trickster tale with a surprise ending. Reprint. BOMC.

This edited collection explores how science can be taught to English language learners (ELLs) in 21st century classrooms. The authors focus on the ways in which pre-service and in-service science teachers have developed—or may develop—instructional effectiveness for working with ELLs in the secondary classroom. Chapter topics are grounded in both research and practice, addressing a range of timely topics including the current state of ELL education in the secondary science classroom, approaches to leveraging the talents and strengths of bilingual students in heterogeneous classrooms, best practices in teaching science to multilingual students, and ways to infuse the secondary science teacher preparation curriculum with ELL pedagogy. This book will appeal to an audience beyond secondary content area teachers and teacher educators to all teachers of ELLs, teacher educators and researchers of language acquisition more broadly.

As nationwide calls for educational rigor and accountability continue across the U.S., many states have made the edTPA®, a teacher performance assessment, a requirement for teacher certification. The edTPA® is a subject-specific performance assessment that requires aspiring teachers to plan, implement, assess, and reflect upon a learning segment, while demonstrating pedagogical skills related to their disciplines. While it is designed to promote teaching excellence, the edTPA® can drive already-stressed teacher candidates to their breaking point, as it places them in an unfamiliar classroom and asks them to quickly display their knowledge and savvy. This book is here to help teacher candidates not only survive the challenge of the edTPA®, but also thrive. It maps out precisely what steps aspiring secondary education teachers should take to ensure successful completion of the edTPA®. Demystifying the language used in the assessment, it uniquely connects edTPA® requirements with what teacher candidates learn within their teacher preparation programs, showing them how the assessment relates to what they are already doing in their classrooms. The strategies in this book draw on both academic research and practical experience to guide student teachers as they plan for their edTPA® portfolios and for their teaching careers beyond.

Esperanza Rising joins the Scholastic Gold line, which features award-winning and beloved novels. Includes exclusive bonus content! Esperanza thought she'd always live a privileged life on her family's ranch in Mexico. She'd always have fancy dresses, a beautiful home filled with servants, and Mama, Papa, and Abuelita to care for her. But a sudden tragedy forces Esperanza and Mama to flee to California and settle in a Mexican farm labor camp. Esperanza isn't ready for the hard work, financial struggles brought on by the Great Depression, or lack of acceptance she now faces. When Mama gets sick and a strike for better working conditions threatens to uproot their new life, Esperanza must find a way to rise above her difficult circumstances—because Mama's life, and her own, depend on it.
