Gmaw Mig

ER70S-6 (GMAW) MIG. Description: Mild Steel Welding Alloy. A general purpose welding wire for fabrication of mild steel. Contains more deoxidizers than ER70S-3.

Download Ebook Er70s 6 Gmaw Mig

The additional deoxidizers also provide better wetting, giving a flatter bead shape and the capability of faster travel speeds.

0.8mm Mild Steel MIG Wire - 5kg Reel This wire is layer wound for consistent feed rates helping towards improving your welds. The wire is ER70S-6 which has a higher Silicon and Manganese level than A18 types which gives a better flow, improved conductivity resulting in a higher strength. With this item you have free standard delivery.
