Roth's *Everyman* has defended himself against the fear of death with the conviction that he will never die (I had thought I secretly I was certain that life goes on and on). His best argument for immortality has always been sex. To live has been to fuck and to fuck has been to live.

In *The Humbling* (2009), aging actor Simon Axler embarks on a risky and aberrant affair in a desperate attempt to recoup his lost artistic gifts. Everything is over for Simon Axler, the protagonist of the history. One of the leading American stage actors of his generation, now in his sixties, he has lost his magic, his talent and his assurance. His Falstaff and Peer Gynt and Vanya, all his great roles, 'are melted into air, into thin air'. When he goes on stage he feels like a lunatic and looks like an idiot. His confidence in his powers has drained away; he imagines people laughing at him; he can no longer pretend to be someone else. His wife has gone, his audience has left him, his agent can't persuade him to

make a comeback. Into this shattering account of inexplicable and terrifying self-evacuation bursts a counterplot of unusual erotic desire, a consolation for the bereft life so risky and aberrant that it points not towards comfort and gratification but to a yet darker and more shocking end. In this long day's journey into night, told with Roth's inimitable urgency, bravura and gravity, all the ways that we persuade ourselves of our solidity, all our life's performances - talent, love, sex, hope, energy, reputation - are stripped off.

Winner of the Man Booker International Prize 2011 In the "stifling heat of equatorial Newark," a terrifying epidemic is raging, threatening the children of the New Jersey city with maiming, paralysis, lifelong disability, and even death. This is the startling theme of Philip Roth's wrenching new book: a wartime polio epidemic in the summer of 1944 and the effect it has on a closely knit, family-oriented Newark community and its children. At the center of *Nemesis* is a vigorous, dutiful twenty-three-year-old playground director, Bucky Cantor, a javelin thrower and weightlifter, who is devoted to his charges and disappointed with himself because his weak eyes have excluded him from serving in the war alongside his contemporaries. Focusing on Cantor's dilemmas as polio begins to ravage his playground—and on the everyday realities he faces—Roth leads us through every inch of emotion such a pestilence can breed: the fear, the panic, the anger, the bewilderment, the suffering, and the pain. Moving between the smoldering, malodorous streets of besieged Newark and Indian Hill, a pristine children's summer camp high in the Poconos—whose "mountain air was purified of all contaminants"—Roth depicts a decent, energetic man with the best intentions struggling in his own private war against the epidemic. Roth is tenderly exact at every point about Cantor's passage into

personal disaster, and no less exact about the condition of childhood. Through this story runs the dark questions that haunt all four of Roth's late short novels, *Everyman*, *Indignation*, *The Humbling*, and now *Nemesis*: What kind of accidental choices fatally shape a life? How does the individual withstand the onslaught of circumstance?
