Narrated by a longtime New York City ward boss, this volume reveals the successful application of corrupt practices such as patronage-based appointments and the exercise of power for personal gain.

Presents the life of the American boxer, chronicling his rise as a young amateur fighter and Olympic medalist, his refusal to serve in the army during the Vietnam conflict, his championship bouts, and his battle against Parkinson's disease.

This is the first book created primarily for the field identification of parrots, one of the most familiar and colorful groups of birds. From the mighty, macaws to the diminutive pygmy parrots, the 350 species of parrots include cockatoos, parakeets, lovebirds, and Budgerigar. Most are brightly colored or even gaudy, but a few are drab, and some are nocturnal and flightless. Parrots, found throughout most of the warmer regions of the world, occur in greatest numbers in Australasian and South America. This book includes 88 superb color illustrations of every species and most identifiable subspecies of parrot, as well as range maps of their locations. It offers many firsthand insights into the ecology of each species, vocalizations, life cycle characteristics, and geographical variation. It also provides up-to-date information on the conservation status of those species of parrots that are threatened or endangered.

This text presents an introduction and a reference source of terms in the writing of biographies, autobiographies and related literature.

Ite(t)m)s not easy getting published, but everyone has to do it. Writing for Peer Reviewed Journals presents an insider(t)m)s perspective on the secret business of academic publishing, making explicit many of the dilemmas and struggles faced by all writers, but rarely discussed. Its unique approach is theorised and practical. It offers a set of moves for writing a journal article that is structured and doable but also attends to the identity issues that manifest on the page and in the politics of academic life. The book comprehensively assists anyone concerned about getting published; whether they are early in their career or moving from a practice base into higher education, or more experienced but still feeling in need of further information. Avoiding a e-tips and tricks(se)t)m approach, which tends to oversimplify what is at stake in getting published, the authors emphasise the production, nurture and sustainability of scholarship through writing e' a focus on both the scholar and the text or what they call text work/identity work. The chapters are ordered to develop a systematic approach to the process, including such topics as: The writer The reader What(e)t)m)s the contribution? Beginning work Refining the argument Engaging with reviewers and editors Writing for Peer Reviewed Journals uses a wide range of multi-disciplinary examples from the writing workshops the authors have run in universities around the world: including the UK, Canada, Australia, New Zealand, Ireland, South Africa, Norway, Sweden, Denmark and the United States. This international approach coupled with theoretically grounded strategies to guide the authoring process ensure that people at all stages of their career are addressed. This lively book uses a combination of personal stories, student texts, published journal abstracts and excerpts from interviews with journal editors and publishers. Written in an accessible style, one which does not use the patronising e-yoe(t)m) of advice books, it offers a collegial approach to a task which is difficult for most scholars, regardless of their years of experience.

George Orwell set out [to make political writing into an art], and to a wide extent this aim shaped the future of English literature ¶ his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the [four great motives for writing] ¶ [sheer egoism], [aesthetic enthusiasm], [historical impulse] and [political purpose] ¶ and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can ¶ and must ¶ be rediscovered with every age.' ¶ Irish Times

A definitive military portrait of America's first president traces Washington's wartime experiences from the 1750s to the 1790s, assessing the characteristics, successes, and failures of George Washington as a military strategist, tactician, administrator, and leader of men and explaining how he unified and shaped the military forces that won the American Revolution. Reprint, 20,000 first printing.
