CHAPTER-1

Expert Systems: Principles and Programming, Third Edition. Joseph C. Giarratano, Gary D. Riley. Gary Riley was, for a long time, a NASA employee whose sole assignment seemed to be to work out the C implementation of the OPS language from LISP to C, so that the military could use it. LISP, even the Symbolics LISP machine, was far too slow for practical applications.

Expert Systems: Principles and Programming, Third Edition ...

Expert Systems: Principles and Programming, Fourth Edition 17 Knowledge in Rule-Based Systems Knowledge is part of a hierarchy. Knowledge refers to rules that are activated by facts or other rules. Activated rules produce new facts or conclusions. Conclusions are the end-product of inferences when done according to formal rules.

Chapter 2: The Representation of Knowledge

Expert Systems: Principles and Programming, Fourth Edition 13 Declarative Knowledge Knowledge that something is true or false Usually associated with declarative statements E.g., "Don't touch that hot wire."

Expert Systems : Principles and Programming by Joseph C. ...

Expert Systems: Principles and Programming, Fourth Edition 31 Predicate Field Constraint The predicate field constraint: allows for performing predicate tests directly within patterns. The predicate field constraint is more efficient than using the test CE. It can be used just like a literal field constraint - by itself or part of a complex field.
