Family And Kinship In Chinese

The Chinese kinship system (simplified Chinese: 亲属制度; traditional Chinese: 親屬制度; pinyin: qīnshǔ zhìdù) is classified as a "Sudanese" or "descriptive" system for the definition of family. Identified by Lewis Henry Morgan in his 1871 work *Systems of Consanguinity and Affinity of the Human Family*, the Sudanese system is one of the six major kinship systems together with Eskimo ...

Chinese kinship - Wikipedia

The traditional family in China consisted of parents, children, extended family, and even kinship relationships. Under this prereform China model, male children were especially important in rural areas due to the need for labor on farms. The word “family” usually referred to a married couple who may or may not have children.

Chinese kinship | Familypedia | Fandom

The Chinese kinship system is patrilineal (traces ancestry on the father's side). A father's primary duty was to bring up his sons to preserve and improve on his life's accomplishments; a son's primary duty was to honor his parents, provide for them (the eldest son's duty) through their old age, and carry on the family name through sons of his own.
