This volume contains several articles on the topic 'Detention in non-international armed conflict', including the Copenhagen Process, and moreover features contributions on autonomous weapons systems, Apartheid and the second Turkel Report. It also contains an elaborate Year in Review and a special section on the high-level Boundaries of the Battlefield symposium, including a conference report and several in-depth reflections on various other aspects of the symposium. The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high-quality, peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers and students.

When popular protests started in Tunisia in late 2010, few anticipated the implications these events would have for the entire Arab region. In the following years, this region witnessed deep changes, increased divisions, and even failing states. Meanwhile, Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period? And what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia's transition 'inside and out' from four angles: Tunisian polity and politics which provide the framework for its foreign policy since the 'Arab Spring'; bilateral relations before and after the 'Arab Spring'; Tunisia's activism in international organisations as well as their presence in Tunisia; and transnational issues in Tunisia. Drawing on a broad range of primary sources, including authors' own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level, but also at the level of external relations. New and old alliances, a broadening of relations, and new activism of civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally. Providing an encompassing picture of Tunisia's changed role and successful transition from an autocracy to a democracy, the book allows students and scholars in the field to understand the 'last country standing' better, a country that both the scientific community and the political scene should not underestimate for the promises it holds.

Once hailed by acclaimed director D. W. Griffith as "the greatest natural actress now in pictures," Una Merkel (1903-1986) was a rare individual in Hollywood's Golden Age. Humble, self-effacing, and egoless, she confessed to having great insecurities and an inferiority complex. Never aspiring to be a star, she was more interested in good roles, regardless of their size, which often meant supporting the more important actors of her day—Jean Harlow, Jeanette MacDonald, Spencer Tracy, Clark Gable, James Stewart, Carole Lombard, and Marlene Dietrich, to name a few. But Una didn't mind playing second fiddle to them. She was able to parlay these parts into a career that lasted more than forty years and included not only film, but also theater, television, and radio. Her career achievements went on to be acknowledged by a star on the Hollywood Walk of Fame, a Tony Award, and an Oscar nomination. Whether she played harebrained ingénues, wisecracking best friends, feisty pioneer women, or cantankerous matrons, critics appreciated her quirky characterizations, which were made even better with her trademark Southern accent, deft comic delivery, and incomparable stage presence. Filmmakers and co-workers respected her tireless work ethic and professionalism, while her family, friends, and fans loved her sweet, kindhearted disposition; genuine concern for others, and down-to-earth personality. This book, the first full-length biography devoted to Una Merkel, will finally give this endearing actress her just due, examining not only her extraordinary career, but also her amazing life, which may have seemed idyllic and storybook from the outside, but was actually filled with a great amount of tragedy and pain. Scrupulously researched, this biography is enhanced by information gleaned from some of Merkel's personal correspondence, rare archival documents, interviews, and recollections shared by her friends and colleagues. Now you're in for it! Join world famous film star Rebecca Lord as she takes you into the strange and hilarious world of adult films. This edited volume analyses different forms of resistance against international institutions and charts their success or failure in changing the normative orders embodied in these institutions. Non-state groups and specific states alike advocate alternative global politics, at the same time finding themselves demonized as pariahs and outlaws who disturb established systems of governance. However, over time, some of these actors not only manage to shake off such allegations, but even find their normative convictions accepted by international institutions. This book develops an innovative conceptual framework to understand and explain these processes, using seven cases studies in diverse policy fields; including international security, health, migration, religion and internet politics. This framework demonstrates the importance of coalition-building and strategic framing in order to form a successful resistance and bring change in world politics.
