Sultanate of Oman: 50 golden years of progress

From Juha Vaatainen's blazing sprint finish in the 10,000m in Helsinki 1971 to Karsten Warholm equalling the long-standing European indoor 400m record in Glasgow 2019, European Athletics remembered some of the greatest moments of the last five decades as part of the '50 Golden Moments' series to celebrate 50 years of European Athletics.

This tribute examines the life of this outstanding personality and monarch, with emphasis on her Canadian experiences.

In an age plagued by selfishness, materialism, and violence, ethicists feel impelled to find a universal system of values. To arrive at such a "rule" requires that they struggle with a series of seemingly irreconcilable questions. First, are universal values possible in a pluralistic world, and how does one do justice to both human equality and to individual and cultural differences? How is one to understand the interface between religious moral teachings and the ethics of secular humanism? Finally, can such a system integrate moral intuition and moral reason? In the first scholarly book in English on the golden rule since the seventeenth century, Jeffrey Wattles demonstrates how a clear understanding of the psychological, philosophical, and religious ramifications of the rule can form the synthesis needed to solve these dilemmas. The golden rule, "do to others as you would have others do to you," is widely assumed to have a single meaning, shared by virtually all the world's religions. It strikes the average person as

intuitively true, though most modern philosophers reject it or recast it in more rational form. Wattles surveys the history of the golden rule and its spectrum of meanings in diverse contexts, ranging from Confucius to Plato and Aristotle, from classical Jewish literature to the New Testament. He also considers medieval, Reformation, and modern theological and philosophical responses and objections to the rule, as well as how some early twentieth-century American leaders have tried to use the rule. Wattles draws these diverse interpretation into a synthesis that responds, at the psychological, philosophical, and religious levels, to the challenges to moral living in any given culture. Emotionally, the rules counsels consideration for others feelings by asking that "you place yourself in their shoes." Intellectually, it activates moral thinking about what is fair. At the same time, it retains a spiritual appeal as "the principle of the practice of the family of God." Demonstrating how, despite its contentious history, this age-old ethical principle continues to be relevant in dealing with contemporary issues, The Golden Rule should interest students and scholars working in religious studies, philosophy and ethics, and psychology, as well as anyone looking for an alternative to postmodern cynicism and alienation.

For the past five decades the Texas Observer has been an essential voice in Texas culture and politics, championing honest government, civil rights, labor, and the environment, while providing a platform for many of the state's most passionate and progressive voices. Included are ninety-one selections from Roy Bedichek, Lou Dubose, Ronnie Dugger, Dagoberto Gilb, Jim Hightower, Molly Ivins, Larry McMurtry, Maury Maverick Jr., Willie Morris, Debbie Nathan, and others. To mark the Observer's fiftieth anniversary, Char Miller has selected a cross section of the best work to appear in its pages. Not only does the collection pay homage to an important alternative voice in Texas journalism, it also serves as a progressive chronicle of a half-century of life in the Lone Star State—a state that has spawned three presidents in the last forty years. If Texas is, as some say, a crucible for national politics, then Fifty Years of the Texas Observer can be read as a casebook for issues that concern citizens in all fifty states. Molly Ivins's foreword gives historical background for the Observer and sets the stage for the book.

Gorgeously repackaged, this reissue of the classic book presents the iconic photographer's expert and witty reminiscences of the personalities who inspired fashion's golden eras, and left an indelible mark on his own sense of taste and style. "The camera will never be invented that could capture or encompass all that he actually sees," Truman Capote once said of Cecil Beaton. Though known for his portraits, Beaton was as incisive a writer as he was a photographer. First published in 1954, *The Glass of Fashion* is a classic—an invaluable primer on the history and highlights of fashion from a man who was a chronicler of taste, and an intimate compendium of the people who inspired his legendary eye. Across eighteen chapters, complemented by more than 150 of his own line drawings, Beaton writes with great wit about the influence of luminaries such as Chanel, Balenciaga, and Dior, as well as relatively unknown muses like his Aunt Jessie, who gave him his first glimpse of "the grown-up world of fashion." Out of print for decades but recognized and sought after as a touchstone text, *The Glass of Fashion* will be irresistible to a new generation of fashion enthusiasts and a seminal book in any Beaton library. It is both a treasury and a treasure.

groundbreaking book, Henry Winter will address the state England are in on the golden anniversary of their greatest moment. Part lament, part anatomy of an obsession, both personal and collective, it analyses the truth behind the endless excuses, apportions the blame for the crimes against English football, but is also a search for hope and solutions

Anna is a writer, author of one very successful novel, who now keeps four notebooks. In one, with a black cover, she reviews the African experience of her earlier years. In a red one she records her political life, her disillusionment with communism. In a yellow one she writes a novel in which the heroine relives part of her own experience. And in a blue one she keeps a personal diary. Finally, in love with an American writer and threatened with insanity, Anna resolves to bring the threads of all four books together in a golden notebook. Doris Lessing's best-known and most influential novel, *The Golden Notebook* retains its extraordinary power and relevance decades after its initial publication.

Bessie Pease Gutmann was a premier illustrator during the first half of the twentieth century. She embodies the feel and subject matter that has come to be associated with women illustrators of that period. This visual masterpiece contains more full-color photography of Gutmann's work than all other previous Gutmann publications, and is accompanied by the most complete pricing to her work ever offered. Some of the works shown are so rare that this book provides their only publication outside of hard-to-find antique art print catalogs. The magnificent imagery of this book will make it a wonderful addition to anyone's art library.
