Force 120 HP (1990 L-Drive) Outboard Motor ... - Marine Engine

The L Drive was a failed experiment by Bayliner to give you the benefits of both an outboard and a sterndrive, and in doing so they succeeded in neither. No known motor swaps exist, its a proprietary design used only for 2 years. Basically its a Force powerhead shoved up the back of the boat, using a specialized Force lower unit.

Let's look at a diagram of a car.  
When the car is sitting still,  
gravity exerts a downward force  
on the car (this force acts  
everywhere on the car, but for  
simplicity, we can draw the force  
at the car's center of mass). But  
the ground exerts an equal and  
opposite upward force on the  
tires, so the car does not move.
