Your Ford F150's service engine soon light is there to let you know that some sort of problem has been detected with the vehicle. Any vehicles made in 1996 or newer use OBDII codes, which can easily be retrieved from a good code scanner. A flashing service engine soon light is telling you that something needs immediate attention.

Ford F150: Service Engine Soon Light ? Diagnosis ...

Ford Check Engine Light (CEL), also known as service engine soon (SES) warning, will stay on if a problem has been detected by the On-Board Diagnostic System (OBD-II). Ford check engine light will turn on when you turn on the ignition under normal operation but should turn off and stay off once you start the engine.

Troubleshooting Ford Check Engine Light | YOUCANIC

A "service engine soon" (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.
