almost vanishing theorems, etc.

Foundations of perfectoid spaces - School
of Mathematics

In mathematics, perfectoid spaces are adic spaces of special kind, which occur in the study of problems of "mixed characteristic", such as local fields of characteristic zero which have residue fields of characteristic prime p . A perfectoid field is a complete topological field K whose topology is induced by a nondiscrete valuation of rank 1, such that the Frobenius endomorphism is surjective on K° / p where K° denotes the ring of power-bounded elements. Perfectoid spaces may be used to ...

Online Library Foundations Of Perfectoid Spaces

foundations of perfectoid spaces as a consequence it is not directly done, you could undertake even more vis--vis this life, approximately the world. We offer you this proper as well as simple habit to acquire those all. We manage to pay for foundations of perfectoid spaces and numerous book

Foundations Of Perfectoid Spaces

In the house, workplace, or perhaps in your method can be all best area within net connections. If you object to download and install the foundations of perfectoid spaces, it is enormously easy then, since currently we extend the member to buy and create bargains to download and install foundations of perfectoid spaces hence simple!

Foundations Of Perfectoid Spaces

Now an a noid perfectoid space is

Online Library Foundations Of Perfectoid Spaces

associated to a perfectoid a noid K -algebra, which is a pair $(R; R_+)$, where R is a perfectoid K -algebra, and $R_+ \wedge R$ is open and integrally closed (and often $R_+ = R$). There is a natural way to form the tilt $(R[; R[+)$. To such a pair $(R; R_+)$, Huber, [18], associates a space $X = \text{Spa}(R; R_+)$ of equivalence classes of

PERFECTOID SPACES - uni-bonn.de
A perfectoid space is an object of CLVRS which is locally isomorphic to $\text{Spa}(A)$ with A a perfectoid ring. Note however that CLVRS is a full subcategory of the category `PreValuedRingedSpace` of topological spaces equipped with a presheaf of topological rings and a valuation on each stalk, so the isomorphism can be checked in `PreValuedRingedSpace` instead, which is what we do.

Foundations Of Perfectoid Spaces

Using Huber's formalism of adic spaces and Scholze's formalism of perfectoid spaces, we globalize the constructions to give several descriptions of the étale local systems on analytic spaces over p -adic fields. One of these descriptions uses a relative version of the Fargues-Fontaine curve.

[1301.0792] Relative p -adic Hodge theory: Foundations

Download PDF Abstract: We introduce a certain class of so-called perfectoid rings and spaces, which give a natural framework for Faltings' almost purity theorem, and for which there is a natural tilting operation which exchanges characteristic 0 and characteristic p . We

deduce the weight-monodromy conjecture in certain cases by reduction to equal characteristic.

[1111.4914] Perfectoid spaces - arXiv.org
About Me: I am a postdoctoral scholar at UC Berkeley as part of the Research Training Group in Arithmetic Geometry. My mathematical research lives at the intersection of algebraic geometry and number theory, and centers around nonarchimedean and rigid analytic geometry, with a particular emphasis on establishing the geometric foundations of perfectoid spaces.

year's seminar will focus on the perfectoid spaces.

Number theory learning seminar -
Mathematics

This makes many results accessible over fields such as $F_p((t))$, which are wide open over fields of arithmetic interest such as \mathbb{Q}_p . The theory of perfectoid spaces was initially designed as a means of transporting information available over $F_p((t))$ to \mathbb{Q}_p , but has since found a number of independent applications.

Perfectoid Spaces and their Applications
Since their introduction just two years ago, perfectoid spaces have played a crucial role in a number of striking advances in arithmetic algebraic geometry: the proof of Deligne's weight-monodromy conjecture for complete intersections in toric varieties; the development of p -adic Hodge theory
