What are the various atmospheres or moods that the reading of literary works can trigger?

Hans Ulrich

Gumbrecht has long argued that the function of literature is not so much to describe, or to re-present, as

# Where To Download

to make present.

Here, he goes one  
step further,

exploring the

substance and

reality of language

as a material

component of the

world—impalpable

hints, tones, and

airs that, as much

as they may be

elusive, are no less

matters of actual

# Where To Download

fact. Reading, we discover, is an experiencing of specific moods and atmospheres, or Stimmung. These moods are on a continuum akin to a musical scale. They present themselves as nuances that challenge our powers of

# Where To Download

discernment and description, as well as language's potential to capture them.

Perhaps the best we can do is to point in their direction.

Conveying personal encounters with poetry, song, painting, and the novel, this book

# Where To Download

thus gestures  
toward the  
intangible and in  
the process,  
constitutes a bold  
defense of the  
subjective  
experience of the  
arts.
