The early 1930s saw fierce competition in the U.S., with rivals Indian and Harley Davidson squaring off and setting new sales records. By the mid - 1930s, more than 80 types of motorcycles would be available on the open market. 1937, perhaps, is the year that motorcycles truly became powersport vehicles, with professional rider Joe Petrali reaching 136 mph on a modified Harley Davidson, setting ...

Recognising that flat track was starting to grow in popularity, in the mid-2000s, Harley Europe were calling for a European-based model from Harley instead of the US-targeted ones. They wanted an air-cooled big V-twin that wasn't a tourer, but instead had genuine sporting abilities, which they hoped would appeal to the European buyer and attract younger riders into the brand.

This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders'
