Motorcycle Fork Seal Fluid Replacement How-To: Fix a Leaking Fork Seal Hayabusa Front Fork Seal Replacement

No real need to replace the seals if the forks are not leaking. There is no factory requirements on fork service. However, fork oil should be changed every two years if you expect top performance. Fork oil becomes contaminated and loses its viscosity just like engine oil. Twobrothersbusa has an easy "How To" thread above.

Hayabusa blew a fork seal

Disassemble the fork and remove the old fork seal. To prepare the fork for the new seal, rub away all rust and imperfections with an oil-soaked cloth. Then, put the new seal over the stanchion and tap the seal down with a seal driver. Reassemble the fork by replacing the damping rod inside the fork, and putting the clip and dust seal back on the fork.

How to Replace Fork Seals: 8 Steps (with Pictures) - wikiHow

It's easy to do. Cut off a chunk of 35mm film. Pop your dust boot up. Gently slide the film between the seal and the fork tube. Work it around the seal, up and down, until you get back to where you started. Done. Then pry up the dust seals carefully. RevZilla photo. What if, for obvious reasons, you don't have any film handy?
