Since she was a child, Lia has longed to be free from the confines of the great worldship which has been the last refuge of the human race for generations, but being snatched from the only home she has ever known by aliens was not exactly what she had in mind. When she learns that the admiral of the alien fleet plans to claim her as his mate-regardless of her thoughts on the matter-her surprise turns to fury. The huge and intimidating yet undeniably handsome admiral is unmoved by her protests, however, and her defiance merely earns her a trip over his knee for a sound spanking on her bare bottom. To make matters worse, the painful, embarrassing chastisement brings about a helpless, shameful arousal unlike anything she has ever felt before. Having grown up in a society which abandoned sexual contact as a means of procreation long ago, Lia is deeply humiliated by the intimate, thorough medical exam she receives from the ship's doctor in the admiral's presence, and her failure to cooperate results in a stern punishment from her future mate. To cap it all off, with her bottom still burning and her cheeks blushing crimson she is brought to a shattering climax right there on the examination table to confirm her sexual responsiveness. Though Admiral Cavvik hadn't planned on taking a human female as his mate, he was left with little choice after one look into Lia's eyes called up primal instincts that could not be denied. But when it becomes clear that some among his people are violently opposed to his choice of companion, will he stand his ground and protect the little human he has quickly grown to love? Publisher's Note: Taken by the Admiral is an erotic romance novel that includes spankings, sexual scenes, medical play, anal play, and more. If such material offends you, please don't buy this book.

From the moment she saw him on her first day at her new job in London, there was something about Michael which annoyed Siobhan Brennan... and something else that pulled her to this stunningly handsome man and his boldly arrogant personality. In spite of her misgivings she soon finds herself out on a date with him, and she is torn between a desire to defy him as often as possible and a deeper, more disturbing need to submit to him. It certainly doesn't help that very embarrassing thoughts keep popping into her head uninvited: images of herself bent over, bare bottom on display, waiting for Michael to chastise her firmly. It is not long before Siobhan, in a rash moment, actually dares Michael to spank her, only to find that he is more than up to the challenge of turning her naked backside bright red. To her horror, her sore behind only fuels the fire growing within her, and she is soon on her knees before him, blushing with shame yet needing him to take her and take her hard. It is only afterwards that the couple must come to terms with what took place, and what it means for their relationship. Was this just a one-time event, something to be tried but never repeated, or will Siobhan find herself punished like a naughty girl again in the future? As scandalized as it makes her feel, in her heart she knows what she needs, but is Michael prepared to give it to her? And when she finds out that Michael has kept something important from her about his past and who he really is, will she be able to forgive him or will the revelation tear them apart forever? Publisher's Note: My Naughty Little Secret is an erotic novel that includes spankings, anal play, graphic sexual scenes, elements of BDSM, and more. If such material offends you, please don't buy this book.
