This book begins with you working along as Scott Guthrie builds a complete ASP.NET MVC reference application. He begins NerdDinner by using the File->New Project menu command within Visual Studio to create a new ASP.NET MVC Application. You'll then incrementally add functionality and features. Along the way you ' ll cover how to create a database, build a model layer with business rule validations, implement listing/details data browsing, provide CRUD (Create, Update, Delete) data form entry support, implement efficient data paging, reuse UI using master pages and partials, secure the application using authentication and authorization, use AJAX to deliver dynamic updates and interactive map support, and implement automated unit testing. From there, the bulk of the rest of the book begins with the basic concepts around the model view controller pattern, including the little history and the state of the MVC on the web today. We'll then go into the ways that MVC is different from ASP.NET Web Forms. We'll explore the structure of a standard MVC application and see what you get out of the box. Next we dig deep into routing and see the role URLs play in your application. We'll deep dive into controllers and views and see what role the Ajax plays in your applications. The last third of the book focuses entirely on advanced techniques and extending the framework. In some places, we assume that you're somewhat familiar with ASP.NET WebForms, at least peripherally. There are a lot of ASP.NET WebForms developers out there who are interested in ASP.NET MVC so there are a number of places in this book where we contrast the two technologies. Even if you're not already an ASP.NET developer, you might still find these sections interesting for context, as well as for your own edification as ASP.NET MVC may not be the web technology that you're looking for.

"Michael Adams's book is great fun! No one intends to make a truly bad movie, but when they do, Michael Adams will be there to watch it...and make it entertaining!" —John Landis, director of Trading Places and The Blues Brothers In Showgirls, Teen Wolves, and Astro Zombies, film critic Michael Adams embarks on a year-long odyssey to discover the worst movie ever made, which Mystery Science Theater 3000 star, writer, and director Kevin Murphy calls "disturbingly comprehensive, joyously critical, and the best of its kind." From all-time cult classics such as Reefer Madness and Plan 9 from Outer Space to new entries to the pantheon such as Gigli and Baby Geniuses, no genre, star, or director is safe from Adams ' s acerbic wit and hilarious observations. In the vein of A.J. Jacobs ' s New York Times bestselling book The Know-It-All, and with the snarky sarcasm of television ' s Mystery Science Theater 3000 and The Soup, Showgirls, Teen Wolves, and Astro Zombies leaves no stone unturned. With a foreword by cult director George A. Romero (Night of the Living Dead and Dawn of the Dead).

Carpe Christmas! 24K gold-plated charm to keep on the ribbon bookmark or wear on a bracelet. Hardcover.

Concrete Vaulted Construction in Imperial Rome examines methods and techniques that enabled builders to construct some of the most imposing monuments of ancient Rome. Focusing on structurally innovative vaulting and the factors that influenced its advancement, Lynne Lancaster also explores a range of related practices, including lightweight pumice as aggregate, amphoras in vaults, vaulting ribs, metal tie bars, and various techniques of buttressing. She provides the geological background of the local building stones and applies mineralogical analysis to determine material provenance, which in turn suggests trading patterns and land use. Lancaster also examines construction techniques in relation to the social, economic, and political contexts of Rome, in an effort to draw connections between changes in the building industry and the events that shaped Roman society from the early empire to late antiquity. This book was awarded the James R. Wiseman Book Award from the Archaeological Institute of America in 2007.

A veteran fire fighter reflects on the stories and tales told by his brothers and superiors during the famed War Years of the Boston Fire Department, from 1963 to 1983.

The book reviews the evolution of labour law within the EU, analyses the distinct regional approaches to employment and welfare, and looks at the pressures for change within a further enlarged EU. The authors then provide a basic outline of employment law in each of the 28 member states, and in Turkey, Montenegro and Bosnia Herzegovina (all of whom are preparing for membership). In the six years since the second edition of this book was published in 2010 the economic consequences of the global financial crisis of 2008 onwards have forced many EU member states to revisit their labour laws, and attempt to make their labour markets more competitive while remaining in the EU framework. These changes have been incorporated into the third edition. The book identifies those areas where the law is unified by the enactment of European Directives, and regional differences which are potential pitfalls for employers with workers in more than one EU state. It is intended for HR persons, lawyers looking for basic knowledge, policymakers & lawmakers elsewhere in EU, and EU bodies.

How do you make it as a pop star? Why does one boy band make it big and another disappear off the pages of the magazines altogether? Why do girls cost more than boys? And who should you sleep with to get to number one? Packed with scandal and intrigue, Pop Babylon takes you to the dark heart of one of the world's most wicked and secretive industries. It's a world where money talks, bullshit walks

and drugs are a way of life. And where talent isn't always at the top of the list of priorities... Tracking a year in the making of a brand-new boy band, Pop Babylon is pure, unadulterated reading pleasure - stuffed with stories about pop's most demanding divas, which jocks do shock and just how long you can chop a line of cocaine. Disgraceful, revelatory and great down-and-dirty fun, it's essential reading for anyone who wants to know what it really takes nowadays to be top of the pops.
