Only her husband's death finally released her to tell the story that had been burning inside her for decades.

Penetrating the mythology surrounding the bizarre life of the billionaire businessman, a Pulitzer Prize-winning investigative team portrays Howard Hughes as a man who, in time, came to be ruled by his madness

In this riveting popular history, the creator of You Must Remember This probes the inner workings of Hollywood's glamorous golden age through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinstains there was Howard Hughes--the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes--perhaps more than any other filmmaker of his era--commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these actresses would not escape his clutches. Vivid, perceptive, timely, and ridiculously entertaining, The Seducer is a landmark work that examines women, sex, and male power in Hollywood during its golden age--a legacy that endures nearly a century later.

His wealth was legendary. His passions were bizarre. Now, the truth about the money, the madness, and the man behind the enigma. Howard Hughes is one of the best known and least understood men of our times--famed for his wealth, his daring, and his descent into madness. Bestselling biographer Charles Higham goes beyond the enigma to reveal the incredible private life of Howard Hughes: * his romances with the great stars of Hollywood--Katharine Hepburn, Bette Davis, Cary Grant, Tyrone Power, and numerous others * his forays into sadomasochism * his involvement with Richard Nixon and Watergate * his bizarre final years This is a compelling portrait of a unique American figure--in a story as revealing as it is unforgettable.

Just in time for the November release of Miramax's "The Aviator," starring Leonardo DiCaprio and directed by Martin Scorsese, this fascinating biography tells the full story of one of the most daring, enigmatic, and reclusive power brokers America has ever known. Photos.

This newly revised and expanded edition of Howard Hughes chronicles the life and legacies of one of the most intriguing and accomplished Americans of the twentieth century. Hughes, born into wealth thanks to his father's innovative drill bit that transformed the oil industry, put his inheritance to work in multiple ways, from producing big-budget Hollywood movies to building the world's fastest and largest airplanes. Hughes set air speed records and traveled around the world in record time, earning ticker-tape parades in three cities in 1938. Later, he moved to Las Vegas and invested heavily in casinos. He bought seven resorts, in each case helping to loosen organized crime's grip on Nevada's lifeblood industry. Although the public viewed Hughes as a heroic and independent-minded trailblazer, behind closed doors he suffered from germophobia, obsessive-compulsive disorder, and an addiction to painkillers. He became paranoid and reclusive, surrounding himself with a small cadre of loyal caretakers. As executives battled each other over his empire, Hughes' physical and mental health deteriorated to the point where he lost control of his business affairs. This second edition includes more insider details on Hughes' personal interactions with actresses, journalists, and employees. New chapters provide insights into Hughes's involvement with the mob, his ownership and struggles as the majority shareholder of TWA and the wide-ranging activities of Hughes Aircraft Company, Hughes's critical role in the Glomar Explorer CIA project (a deep-sea drillship platform built to recover the Soviet submarine K-129), and more. Based on in-depth interviews with individuals who knew and worked with Hughes, this fascinating biography provides a colorful and comprehensive look at Hughes—from his life and career to his final years and lasting influence. This penetrating depiction of the man behind the curtain demonstrates Hughes's legacy, and enduring impact on popular culture.

Howard Hughes's right-hand man reveals how he helped the enigmatic billionaire break the mafia's stranglehold on Las Vegas and arrange the covert relationship between the CIA and mob that led to the Bay of Pigs invasion. Reprint.

"...Howard Hughes never wrote his autobiography...what you are about to read is actually a hoax...Irving was already a best-selling author when, in late 1970, he hit upon the idea of faking the autobiography of Howard Hughes..."--Foreword.
